RxPORTAL™ is a user-friendly way for Georgia Medicaid Fee for Service members to obtain targeted, meaningful content. You can view medication history, look up in-plan pharmacies, review drug information and adjudicate prescription copays.

Prescription Benefit Programs

The major features available are:

▸ **Real-time Copay Lookup** – RxPORTAL guides you through the "What's My Copay Tool" to determine what a copay may be at the retail pharmacy.

▸ **Medication History** – You are able to view your medication history. A printable version can be shared with your doctor.

▸ **Pharmacy Locator** – Finds in-plan pharmacies in your local area, provides a map, and supports searches for 24-hour pharmacies. Searches can be done by address or zip code.

▸ **Drug Data** – Allows you to search the drug database for detailed drug information such as brand name, generic name, generic equivalents and monographs including interaction alerts, instructions for storage and missed doses.

▸ **My Meds** – You can easily set up a product list with dosage form and strength as well as editable fields that lets you add notes regarding product usage, etc.

▸ **Secure Access** – RxPORTAL uses the industry standard for encryption – 128-bit SSL certificate protection – to keep your PHI information secure.

All users who access RxPortal are required to complete the registration page. Access RxPortal at: **https://ga.stateportal.sxc.com** and click on the Member Login link.
