EBI=Effective Behavioral Intervention. See list shown in Attachment 21.

For each of the acceptable combinations shown above, there is only one overall total page limit for narrative sections A through M (shown in the far-right column of the above table). Applicants are free to utilize as much (or as little) of this total allowed page limit for any of their narrative sections A through M, as long as the total number of pages for sections A to M is less than (or equal to) the page limits shown above. This table is the most authoritative guide to maximum page lengths and overrides any references to "suggested page lengths" that might exist throughout Attachment #4: Application Instructions.
