Alert of Changes for Georgia Medicaid Fee-For-Service

Dear <Member First Name> <Member Last Name>:

Starting December 1, 2009, there will be a change in how certain prescriptions for Seroquel[®] 25mg and 50mg can be filled for Georgia Medicaid Fee-for-Service (FFS) members. If you are taking Seroquel[®] 25mg or 50mg strengths only for a total of 50 mg a day, your pharmacy may not be able to process your prescription without prior approval. This change was recommended and supported by the Department of Community Health's (DCH) Drug Utilization Review Board (DURB), which is comprised of physicians, pharmacists and a consumer advocate.

If you are currently only taking Seroquel[®] 25mg or 50mg strengths for up to a total daily dose of 50mg, please call your doctor to discuss this letter and the medication you are taking. Your doctor may call SXC at **1-866-525-5827** to request that you be able to continue your current medication and strength. We encourage you to discuss this with your doctor before December 1, 2009.

This letter is not meant to replace the care you receive from your doctor. This information is also being shared with your doctor.

Sincerely,

Georgia Department of Community Health
Medicaid Fee-For-Service
