

# Board of Community Health Care Management Committee

# Mission

## The Georgia Department of Community Health

We will provide access to affordable, quality health care to Georgians through effective planning, purchasing and oversight.

*We are dedicated to a healthy Georgia.*

# Agenda

- Call to Order
- Approval of Minutes
- SHBP
  - 2012 Wellness Plan
- Medicaid
  - Enrollment
  - Navigant Update
  - CMO Access
  - CMO Performance Improvement Projects

# Agenda

- Medicaid (continued)
  - Case and Disease Management Activity
  - HHS Quality Report
  - Quality Strategic Plan
- Discussion
- Adjournment

*State Health Benefit Plan*  
*2011 Wellness Plan*

# Managed Care Enrollment

- November 2011 CMO Enrollment
  - 1,115,759 Members
    - 188,875 PCK (17%)
    - 926,884 Medicaid (83%)
    - Amerigroup(258,968)
    - PeachState(296,246)
    - Wellcare (560,545)
  - Managed care enrollment remains stable

# CMO Network Adequacy

## 2<sup>nd</sup> Quarter 2011

Presented by:

**Leticia Mayfield**

**Director, CMO Provider Services**

# Network Requirements

## Network Access Requirements

### PCPs

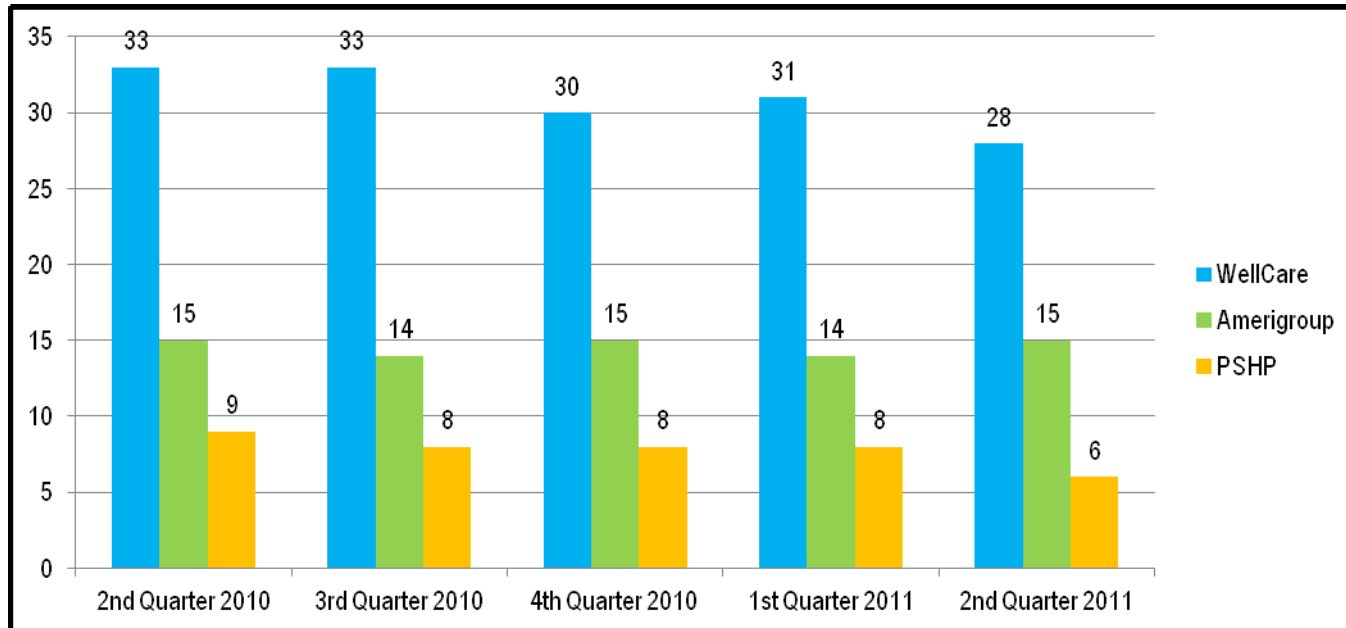

- Two (2) within eight (8) miles - Urban Areas
- Two (2) within fifteen (15) miles - Rural Areas

### Specialists

- One (1) within thirty (30) minutes or thirty (30) miles - Urban Areas
- One within forty-five (45) minutes or forty-five (45) miles - Rural Areas

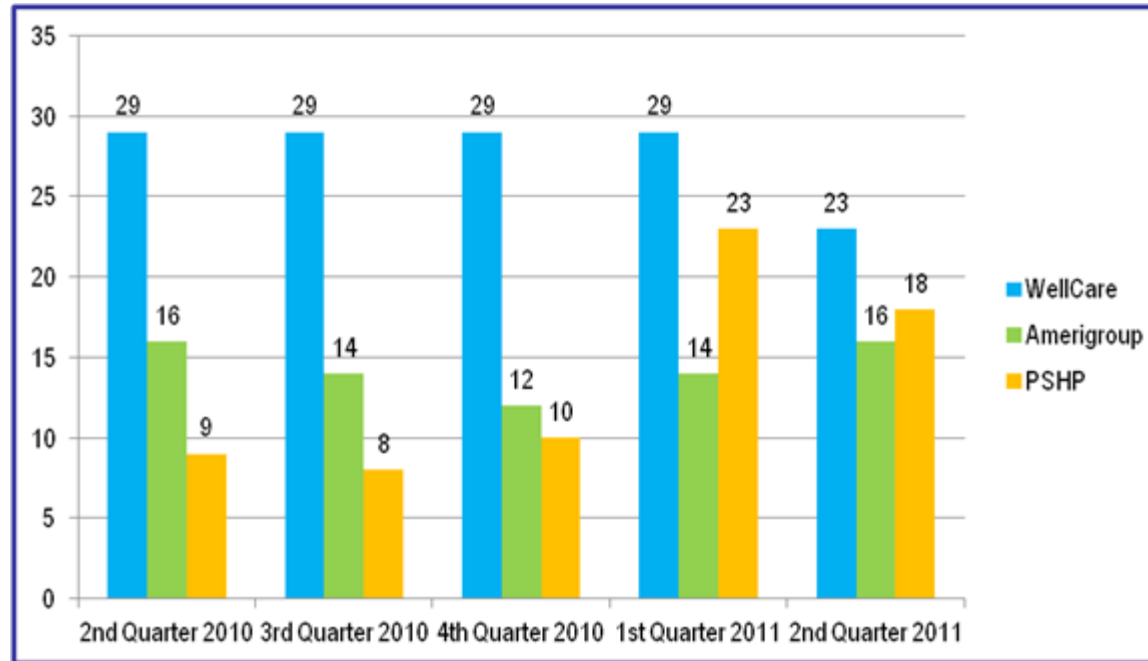

# Number of Counties with 100% Primary Care Physicians Contracted Still Below Benchmark

\*Benchmark = 90%

- WellCare services 159 counties, 28 fell below the benchmark = 18% of their service area
- Amerigroup services 92 counties, 15 fell below the benchmark = 16% of their service area
- PSHP services 90 counties, 6 fell below the benchmark =.06% of their service area
- No additional providers exist for recruitment/contracting

# Number of Counties with 100% Pediatric Physicians Contracted Still Below Benchmark

\*Benchmark = 90%

- WellCare services 159 counties, 23 fell below the benchmark = 14% of their service area
- Amerigroup services 92 counties, 16 fell below the benchmark =17% of their service area
- PSHP services 90 counties, 18 fell below the benchmark =20% of their service area
- No additional providers exist for recruitment/contracting

# Number of Counties with Zero Access to a Specialist

- WellCare services 159 counties, 35 have no access to 13 specialty types = 22% of their service area
- Amerigroup services 92 counties, 33 have no access to 8 specialty types = 36% of their service area
- PSHP services 90 counties, 36 have no access to 9 specialty types = 40% of their service area
- No additional providers exist for recruitment/contracting

# Specialist Access Opportunities Zero Access to a Specialist by Plan

Amerigroup	Peach State Health Plan	WellCare
Endocrinology	Allergy	Audiology
Infectious Disease	Audiology	Dermatology
Rheumatology	Behavioral Health Facilities	Endocrinology
Endocrinology	Dermatology	Infectious Disease
Neonatology	Endocrinology	Rheumatology
24 hour Pharmacy	Infectious Disease	Urology
	24 hour Pharmacy	Vascular Surgery
	Rheumatology	
	Vascular Surgery	

# PQO Update

Presentation to: DCH Board Managed Care Subcommittee

Presented by: Janice Carson, MD

# Validation of PIPs

- Validation of the CY 2010 CMO Performance Improvement Projects
  - ↑ to 9 PIPs ( WCV-15; Immunizations; Lead; Access for 20 – 44; ER; Dental Visits; Childhood Obesity; Member Satisfaction; Provider Satisfaction)
  - 3 PIP study stages – Design, Implementation and Outcomes

# PIP Scoring

- Design– Study Topic, Study Question, Study Indicator, Study Population
- Implementation – Sampling, Data Collection, Interventions
- Outcomes – Data Analysis, Improvement and Sustained Improvement
- Met = satisfied technical requirements. Not all PIPs progressed to real improvement achieved step. Issues with baseline measurement.
- New Scoring Methodology to be in place in CY 2012 – emphasizing achievement of improved outcomes with statistically significant improvement between the baseline and re-measurement period

# PIP Outcomes

## – PIP Outcomes

- Amerigroup: Current scoring – 8 Met and 1 Partially Met
- Amerigroup: New scoring – 3 Met, 3 Partially Met, 3 Not Met
  
- Peachstate: Current scoring – 9 Met
- Peachstate: New scoring – 6 Met, 1 Partially Met, 2 Not Met
  
- Wellcare: Current scoring – 7 Met, 2 Partially Met
- Wellcare: New scoring – 3 Met, 2 Partially Met, 4 Not Met

# PIP Outcomes

PIP	AGP – B	AGP – R2	PSHP – B	PSHP – R2	WC - B	WC – R2
Adult Acc	81.2%	85.9%	78.8%	84.3%	78.6%	85.4%
Immun	29.8%	78%	62.8%	81.4%	75.9%	75.9%^

WCV	62.3%	60.1%^	51.6%	53.9%^	57.4%	59.1%^
Dental	66.8% <sup>P</sup>	69.1% <sup>P</sup>	33.8%	38.8% <sup>1</sup>	65.2%	67.5% <sup>1+</sup>
Obesity	13.7% <sup>*</sup>	28.5% <sup>1*</sup>	32.1% <sup>*</sup>	29% <sup>1*</sup>	36.5%	30.4% <sup>1*^</sup>
ER	60.9	58.1 <sup>1</sup>	57.4	54.7 <sup>1</sup>	65.9	61.7 <sup>1</sup>
Mem Sat	68.9% <sup>*</sup>	73.3% <sup>*</sup>	71.7%	83.7% <sup>*\$</sup>	72.2%	72.6%^
Prov Sat	18.3%	19.3% <sup>1#</sup>	15.8%	36.3% <sup>3</sup>	22.2%	24.1% <sup>3*</sup>

# PIP Outcomes

- Amerigroup - New Scoring
  - 1 = Only remeasurement year 1 reported
  - P = Partially Met (Plan did not report all study indicators);
  - \* = There were several study indicators for this PIP but not all showed improvement;
  - # = could not be assessed for sustained improvement
  - ^ = No statistically significant improvement

# PIP Outcomes

- Peach State – New Scoring
  - 1 = Only remeasurement year 1 reported
  - 3 = Remeasurement year 3 reported
  - \* = There were several study indicators for this PIP but not all showed improvement;
  - ^ = No statistically significant improvement
  - \$ = No sustained improvement

# PIP Outcomes

- Wellcare

<sup>1</sup> = Only remeasurement year 1 reported

<sup>3</sup> = Remeasurement year 3 reported

- = There were several study indicators for this PIP but not all showed improvement;

- + = Partially met – inaccurate study indicators

- ^ = No statistically significant improvement

# Compliance with Federal and State Standards

- Onsite and desk reviews completed to determine CMO compliance with federal and state standards
- Currently reviewing draft reports from EQRO vendor

# Case and Disease Management

- Newly Designed Reports
- DM for Asthma and Diabetes
- CM for OB, General, and Behavioral Health
  - General CM for members with complex medical and special needs, chronic diseases and social barriers

# Amerigroup's Case and Disease Management – 3<sup>rd</sup> Qtr (July – Sept 2011)

- Case Management (opt out – managed individuals have frequent admissions or other needs)
  - OB: 1,552 open cases
    - 120.4 ER visits/1000 MM
    - 55.3 IP visits/1000 MM
    - 159 individuals met their case management goals
  - General
    - 588 open cases
      - 352.9 ER visits/1000 MM
      - 90 IP visits/1000 MM
      - 51 individuals met their case management goals

# Amerigroup's Case and Disease Management – 3<sup>rd</sup> Qtr

- Behavioral Health
  - 22 open cases
    - 363.6 ER visits/1000 MM
    - 163.6 IP visits/1000 MM
    - 6 individuals met their case management goals

# Amerigroup's Case and Disease Management – 3<sup>rd</sup> Qtr

- Disease Management
  - Diabetes: 2059 open cases
    - 109.6 ER visits/1000 MM  
( 1,466 members and 4,077 member months)
    - 15.5 IP/1000MM
  - Asthma: 19,265 open cases
    - 53.6 ER visits/1000 MM (17,181 members and 48,537 member months)
    - 2.1 IP/1000MM

# Amerigroup's Case and Disease Management – 3<sup>rd</sup> Qtr

- To reduce ER use for both DM and CM members:
  - ER Use evaluated monthly
  - Identified members receive automated, IVR call re appropriate use of ER, alternatives for care and resources available for decision making in event of a potential emergency through 24 hour Nurse Line
  - IVR response re PCP will prompt outbound call from clinical team for assessment and additional education
  - Encourage PCP visits or assist with locating PCP

# Peachstate's Case and Disease Management

- Case Management (referred and enrolled); 3<sup>rd</sup> qtr (July – September 2011)
  - OB: 3643 opened cases
    - 161.1 ER visits/1000 MM
    - 100.7 IP visits/1000 MM
    - 168 individuals met their case management goals
  - General: 729 opened cases
    - 418.5 ER visits/1000 MM
    - 101 IP visits/1000 MM
    - 72 individuals met their case management goals

# Peachstate's Case and Disease Management

- Behavioral Health: 522 opened cases
  - 124.6 ER visits/1000 MM
  - 465 IP visits/1000 MM
  - 88 individuals met their case management goals

# Peachstate's Case and Disease Management

- Disease Management
  - Diabetes: 664 open cases
    - 163.3 ER visits/1000 MM
    - 52.1 IP/1000MM
  - Asthma: 10,087 open cases
    - 30.3 ER visits/1000 MM
    - 3.4 IP/1000MM

# Peachstate's Case and Disease Management

- To reduce ER use:
  - Members with frequent and avoidable ER use identified
  - For DM members – education on proper ER use, 24 hour Nursewise after hours nurse call line, and case management services.
  - For CM members – all member who accessed the ER or contacted 24 hour Nursewise received outreach by case manager who performed assessment and determined reason for ER visit. Alternatives for all non-urgent ER visits provided and assistance w/ removing barriers to PCP

# Wellcare's Case and Disease Management

- Case Management (opt out for OB); 3<sup>rd</sup> qtr
  - OB: 963 opened cases
    - 106.4 ER visits/1000 MM
    - 141.2 IP visits/1000 MM
    - 264 individuals met their case management goals
  - General: 48 opened cases
    - 325.3 ER visits/1000 MM
    - 24.1 IP visits/1000 MM
    - 3 individuals met case management goals

# Wellcare's Case and Disease Management

- Behavioral Health: 106 opened cases
  - 227.5 ER visits/1000 MM
  - 58.4 IP visits/1000 MM
  - 63 individuals met their case management goals

# Wellcare's Case and Disease Management

- Disease Management
  - Diabetes: 3,048 open cases
    - 94 ER visits/1000 MM
    - 12 IP/1000MM
  - Asthma: 44,555 open cases
    - 50 ER visits/1000 MM
    - 2 IP/1000MM

# Wellcare's Case and Disease Management

- To reduce ER use:
  - Interventions to begin in January 2012 for DM enrollees
  - OB CM members – analysis showed visits were related to pregnancy diagnosis (abd pain, backache, bleeding)  
Members received education via telephone and/or written materials that promote the medical home. Nurse call line usage is encouraged
  - Interventions to begin in January 2012 for General Case management members

# Accomplishments

- 2011 Annual Report on the Quality of Care for Children in Medicaid and CHIP – HHS Secretary Sebelius
- Quality Strategic Plan
