

Long Term Care Hospital Services Projected Bed Need Summary by LTCH Planning Area

2013 Long Term Care Hospital Bed Need Projection Summary Pursuant to Rule 111-2-2-.36											
LTCH Planning Areas	Step 1	Step 2		Step 3		Step 4				Step 5	Step 6
	2006 Acute Care Discharges	2006 Resident Population	2006 Acute Care Discharge Rate/1000	2013 Resident Population	Projected Acute Care Discharges	(i)	(ii)	(iii)	(iv)	Authorized LTCH Beds	LTCH Surplus/ (Deficit)
						Projected Discharges Needing LTCH Services	Projected LTCH Discharge Days	Projected Average Daily LTCH Census	Projected LTCH Beds Needed at 85% Occupancy		
1	444,148	6,288,955	70.6	7,364,139	488,876	6,355	178,587	489	576	624	48
2	124,114	1,090,376	113.8	1,156,746	123,769	1,609	45,213	124	146	174	28
3	102,324	961,026	106.5	994,074	99,492	1,293	36,344	100	117	83	(34)
4	74,011	858,080	86.3	919,161	74,523	969	27,223	75	88	40	(48)
Statewide	744,597	9,198,437	80.9	10,434,120	786,660	10,227	287,367	787	926	921	(82)

Notes and Sources:

LTCH Planning Areas: Same as Comprehensive Inpatient Physical Rehabilitation Planning Areas. See DCH Rule 111-2-2-.36(2)(h).

Step 1: Acute Care Discharges do not include Perinatal/Neonatal, Psychiatric and Substance Abuse, Inpatient Physical Rehabilitation, or LTCH discharges. Discharges from the 2006 Annual Hospital Questionnaire. 2005 AHQs were used where 2006 data was unavailable. See DCH Rule 111-2-2-.36(3)(a)1.

Step 2: Resident Population projection for 2006 from Office of Planning and Budget 2000-2015 Resident Population Projections, 4/06 Release. Discharge rate for current acute care discharges. [(Current Acute Care Discharges / (Current Population / 1,000)]. See DCH Rule 111-2-2-.36(3)(a)2.

Step 3: Resident Population projection for 2013 from Office of Planning and Budget 2000-2015 Resident Population Projections, 4/06 Release. Projected acute care discharges with 6% inpatient physical rehabilitation overlap reduction [((Projected Population / 1,000) X Current Discharge Rate) X 0.94]. See DCH Rule 111-2-2-.36(3)(a)3.

Step 4 (i): Projected number of acute care discharges which may benefit from LTCH services is determined by adding a 1.3% utilization factor to the projected number of acute care discharges. [(Projected Discharges X 1.3% Utilization Factor)]. See DCH Rule 111-2-2-.36(3)(a)4(i).

Step 4 (ii): Projected LTCH discharge days is determined by multiplying the projected LTCH discharges by average length of stay, which is set at 28.1. See DCH Rule 111-2-2-.36(3)(a)4(ii).

Step 4 (iii): Projected average daily census for LTCH services is determined by dividing the projected discharge days in Step 4(ii) by the number of days in the calendar year. See DCH Rule 111-2-2-.36(3)(a)4(iii).

Step 4 (iv): Projected number of LTCH beds needed is determined using an 85% occupancy standard applied to the projected LTCH average daily census. [Projected Average Daily Census / .85]. See DCH Rule 111-2-2-.36(3)(a)4(iv).

Step 5: Authorized (Existing & Approved) LTCH beds as of April 2, 2008. See DCH Rules 111-2-2-.36(2)(d) and 111-2-2-.36(3)(a)5.

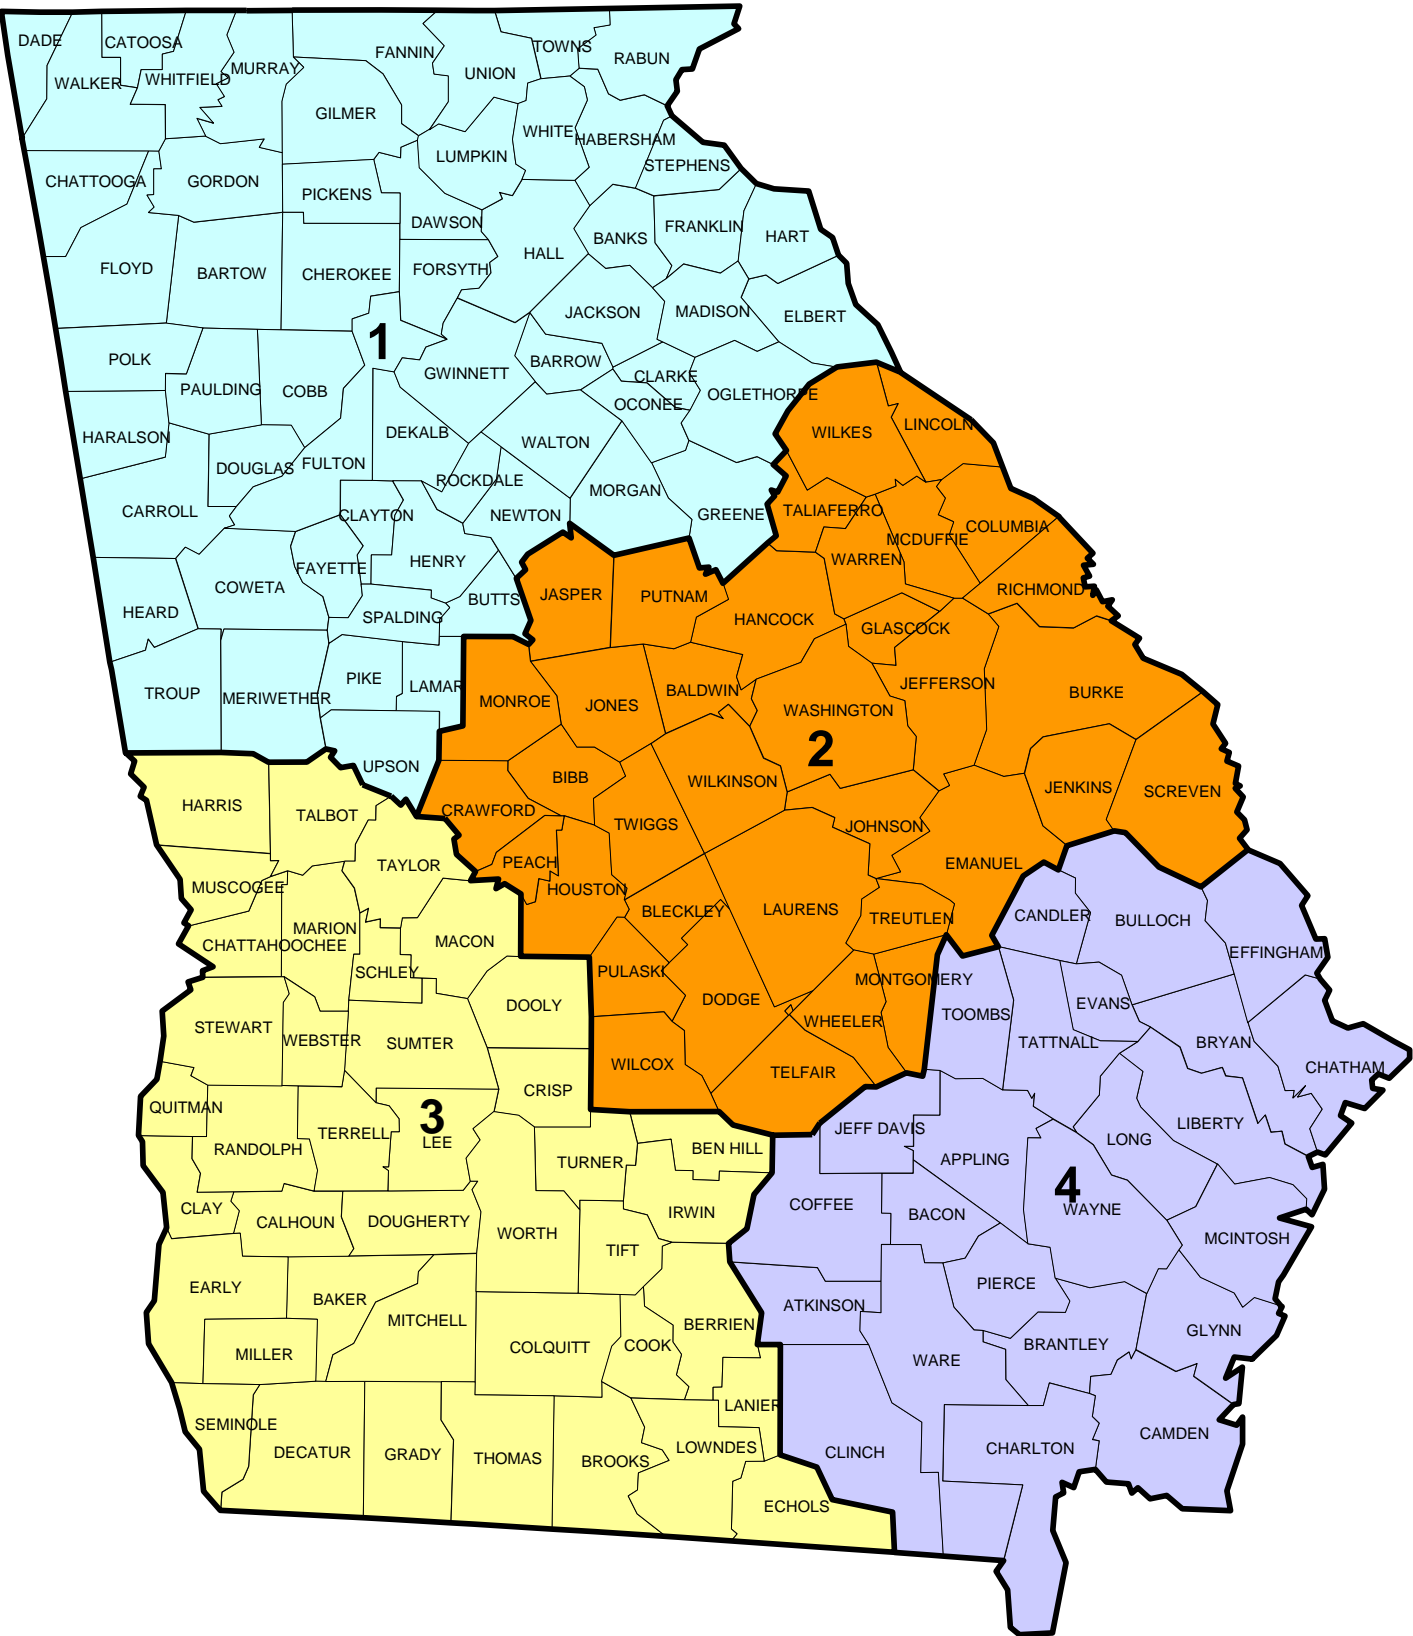

Step 6: [Existing and Approved LTCH Beds - LTCH Beds Needed]. See DCH Rule 111-2-2-.36(3)(a)6.

Notes:
Column A: Same as Comprehensive Inpatient Physical Rehabilitation Planning Areas. See DCH Rule 111-2-2-.36(2)(h).
Column B: Acute Care Discharges do not include Neonatal, Psychiatric, Rehabilitation, or LTCH discharges. See DCH Rule 111-2-2-.36(3)(a)1.
Column C: Resident Population projection for 2006 from Office of Planning and Budget 2000-2015 Resident Population Projections, 4/06 Release. See DCH Rule 111-2-2-.36(3)(a)2.
Column D: Discharge rate for current acute care discharges. [(Current Acute Care Discharges / (Current Population / 1,000)]. See DCH Rule 111-2-2-.36(3)(a)2.
Column E: Resident Population projection for 2013 from Office of Planning and Budget 2000-2015 Resident Population Projections, 4/06 Release.
Column F: Projection of discharges in horizon year using the current year discharge rate and the projected population. Also, reduced by 6% for Rehab hospital overlap. [((Projected Population / 1,000) X Current Discharge Rate) X 0.94].
Column G: Calculates gross beds needed in the horizon year. [(Projected Discharges X 1.3% Utilization Factor X 28.1 ALOS / 365) / .85]
Column H: Authorized (Existing & Approved) LTCH beds as of April 2, 2008. Includes Roosevelt Warm Springs and Shepherd Center. See DCH Rule 111-2-2-.36(3)(a)5.
Column I: [Existing and Approved LTCH Beds - LTCH Beds Needed]
