

This tax season, Medicaid members (including Foster Care) will receive Form 1095-B from the Georgia Medicaid/PeachCare for Kids® Program. Members who receive their medical assistance through a CMO (Amerigroup, Peachstate, or Wellcare) will also receive this form from Georgia Medicaid/PeachCare for Kids. This form is required by the IRS as a result of the Affordable Care Act.

The 1095-B is an information form. Just like a W-2 form, it contains information that is required for completing your taxes. Also, like a W-2 form, the 1095-B form will be provided to the IRS to show the months you had health insurance through Georgia Medicaid/PeachCare for Kids.

In order to avoid possible delays with filing your taxes or with receiving your refund, it is extremely important for each member to make sure that DFCS has the latest address on file. The forms will be sent to your address on file as of December 31, 2016. If the information is not correct, you could be unable to file your taxes on time, which could delay your tax refund if one is due.

**Q. What is the 1095-B and why does it matter to Medicaid members?**

- A. The 1095-B is an information form that lets each Medicaid member know which months during the previous calendar year (2016) he/she had health coverage. - B. Georgia Medicaid Members will need this form to file their taxes beginning in 2015.

**Q. When will Georgia Medicaid Members receive their 1095-B?**
