Validation Overview

The Centers for Medicare & Medicaid Services (CMS) requires that states, through their contracts with managed care organizations (MCOs), measure and report on performance to assess the quality and appropriateness of care and services provided to members. In accordance with the 2016 final rule as set forth in 42 CFR §438.330(c), states must require that MCOs, prepaid inpatient health plans (PIHPs), prepaid ambulatory health plans (PAHPs), and primary care case management (PCCM) entities submit performance measurement data as part of the MCOs', PIHPs', PAHPs', and PCCM entities' quality assessment and performance improvement programs. Validating performance measures is one of the mandatory external quality review (EQR) activities described in §438.358(b)(2). The purpose of performance measure validation (PMV) is to assess the accuracy of performance measure rates reported by the MCO and to determine the extent to which performance measures calculated by the MCO follow state specifications and reporting requirements. The state, its agent that is not an MCO, or an external quality review organization (EQRO) can perform this validation.

The Georgia Department of Community Health (DCH) is responsible for administering the Medicaid program and the Children's Health Insurance Program (CHIP) in the State of Georgia. The State refers to its CHIP program as PeachCare for Kids[®]. Both programs include fee-for-service (FFS) and managed care components and deliver services through a statewide provider network. The FFS program has been in place since the inception of Medicaid in Georgia. The DCH contracts with four privately owned managed care organizations, referred to by the State as care management organizations (CMOs), to deliver services to certain categories of members enrolled in the State's Medicaid and PeachCare for Kids[®] programs. Children in state custody, children receiving adoption assistance, and certain children in the juvenile justice system are enrolled in the Georgia Families 360[°] (GF 360[°]) managed care program. The Georgia Families (GF) program, implemented in 2006, serves all other Medicaid and PeachCare for Kids[®] managed care members not enrolled in the GF 360[°] program. Approximately 1.3 million beneficiaries are enrolled in the GF program.¹

HSAG validated a set of performance measures identified by DCH that were calculated and reported by the CMOs for their GF population. The DCH identified the measurement period as calendar year (CY) 2018. HSAG conducted the validation in accordance with the CMS publication, *EQR Protocol 2: Validation of Performance Measures Reported by the MCO: A Mandatory Protocol for External Quality Review (EQR)*, Version 2.0, September 2012.²

Care Management Organization (CMO) Information

Basic information about Peach State Health Plan (Peach State) appears in Table 1, including the office location(s) involved in the 2019 validation of performance measures audit that covered the CY 2018 measurement period.

Table 1—Peach State Health Plan Information

CMO Name:	Peach State Health Plan
CMO Location:	1100 Circle 75 Pkwy, Atlanta, GA 30339
On-site Location:	1100 Circle 75 Pkwy, Atlanta, GA 30339
Audit Contact:	Alfred Miller
Contact Telephone Number:	678.556.2330
Contact Email Address:	Amiller@centene.com
Site Visit Date:	April 22, 2019

Performance Measures Validated

HSAG validated rates for the following set of performance measures selected by DCH for validation. All performance measures were selected from CMS’ Core Set of Children’s Health Care Quality Measures for Medicaid and CHIP (Child Core Set),³ Core Set of Health Care Quality Measures for Adults Enrolled in Medicaid (Adult Core Set),⁴ or the Agency for Healthcare Research and Quality’s (AHRQ’s) Quality Indicator measures. *Colorectal Cancer Screening*, a Healthcare Effectiveness Data and Information Set (HEDIS®)⁵ non-Medicaid measure, was also included as part of HSAG’s validation. The measurement period was identified by DCH as CY 2018 for all measures Table 2 lists the performance measures that HSAG validated, the method required by DCH for data collection, and the specifications the CMO was required to use for each of the measures.

³ The Centers for Medicare & Medicaid Services. Core Set of Children’s Health Care Quality Measures for Medicaid and CHIP, June 2016.

⁴ The Centers for Medicare & Medicaid Services. Core Set of Health Care Quality Measures for Adults Enrolled in Medicaid, June 2016.

⁵ HEDIS® is a registered trademark of the National Committee for Quality Assurance (NCQA).

Table 2—List of CY 2018 Performance Measures for Peach State Health Plan

Performance Measure		Method	Specifications
1.	<i>Colorectal Cancer Screening*</i>	Hybrid	Custom (HEDIS-modified)* HEDIS*
2.	<i>Developmental Screening in the First Three Years of Life</i>	Hybrid	Custom (Child Core Set-modified, Feb. 2018)** Child Core Set
3.	<i>Diabetes Short-Term Complications Admission Rate</i>	Admin	Adult Core Set (Feb. 2018) Adult Core Set
4.	<i>Heart Failure Admission Rate</i>	Admin	Adult Core Set (Feb. 2018) Adult Core Set
5.	<i>Live Births Weighing Less Than 2,500 Grams</i>	Admin	Custom (AHRQ-modified, Jun. 2018)*** Child Core Set
6.	<i>Percentage of Eligibles Who Received Preventative Dental Services (reported at the county level [159 counties])</i>	Admin	Child Core Set (Feb. 2018)****
7.	<i>Screening for Depression and Follow-Up Plan (Ages 12–17)</i>	Hybrid	Child core Set (Feb.2018), Adult Core Set (Feb. 2018)
8.	<i>Screening for Depression and Follow-Up Plan (Ages 18 and Older)</i>	Hybrid	Child Core Set (Feb. 2018), Adult Core Set (Feb. 2018)

*CMOs should follow the commercial HEDIS 2019 specification and apply to the Medicaid population.

**CMOs should use the Child Core Set dated February 2018 and apply the following modifications: All claims will have EP modifier 96110. CMOs must exclude claims that also have a UA modifier, as these indicate autism services.

***CMOs should follow the AHRQ specification dated June 2018, except will report the rate as a percentage and not per live births.

****CMO are required to report this rate for each Georgia Medicaid county (159 counties total).

In addition to the AHRQ and the CMS adult and child core set measures audited by HSAG, DCH required Peach State to report a selected set of HEDIS measures to DCH. Peach State was required to contract with a National Committee for Quality Assurance (NCQA)-licensed audit organization and undergo an NCQA HEDIS Compliance Audit^{TM,6}. Final audited HEDIS measure results from NCQA’s Interactive Data Submission System (IDSS) were submitted to HSAG and provided to DCH.

⁶ NCQA HEDIS Compliance AuditTM is a trademark of the National Committee for Quality Assurance (NCQA).

Appendix D displays the final audited HEDIS 2019 results for all required measures, covering the CY 2018 measurement period.

Description of Validation Activities

Pre-Audit Strategy

HSAG conducted the validation activities as outlined in the CMS PMV protocol. To complete the validation activities for Peach State, HSAG obtained a list of the performance measures that were selected by DCH for validation.

HSAG then prepared a document request letter that was submitted to Peach State outlining the steps in the PMV process. The document request letter included a request for source code for each performance measure; a completed HEDIS 2019 Information Systems Capabilities Assessment Tool (ISCAT) and any additional supporting documentation necessary to complete the audit. The letter also included an introduction to the medical record review validation (MRRV) process; a timetable for completion; and instructions for submission. HSAG responded to ISCAT-related questions received directly from Peach State during the pre-on-site phase.

Approximately one month prior to the on-site visit, HSAG provided Peach State with an agenda describing all on-site visit activities and indicating the type of staff needed for each session. HSAG also conducted a pre-on-site conference call with Peach State to discuss on-site logistics and expectations, important deadlines, outstanding Roadmap documentation, and any questions from Peach State regarding the process.

Validation Team

The HSAG Performance Measure Validation Team was composed of a lead auditor and several validation team members. HSAG assembled the team based on the skills required for the validation and requirements of Peach State. Some team members, including the lead auditor, participated in the on-site meetings at Peach State; others conducted their work at HSAG’s offices. Table 3 lists the validation team members, their roles, and their skills and expertise.

Table 3—Validation Team

Name and Role	Skills and Expertise
Mariyah Badani, JD, MBA, CHCA <i>Director, Audits/State & Corporate Services; Secondary Auditor</i>	Management of the audit department; Certified HEDIS Compliance Auditor (CHCA); multiple years of auditing experience, data integration, systems review, and analysis.
Allen Iovannisci, MS, CHCA, CPHQ <i>Lead Auditor</i>	CHCA; performance measure knowledge, data integration, systems review, and analysis.

Name and Role	Skills and Expertise
Romy Franklin, MS <i>Audit Specialist, Audits/State & Corporate Services</i>	Assists with EQR performance measure validation and HEDIS audit-related projects through various stages, including implementation, project management, analysis, reports, orientation, and training.
Tammy Gianfrancisco <i>HEDIS Manager, Audits/State & Corporate Services-</i>	Management of audit timelines and deliverables, source code review management, rate review management.
Sarah Lemley <i>Consultant, Source Code Reviewer</i>	Statistics, analysis, and source code/programming language knowledge.

Technical Methods of Data Collection and Analysis

The CMS PMV protocol identifies key types of data that should be reviewed as part of the validation process. The following list describes the type of data collected and how HSAG conducted an analysis of these data:

- 2019 ISCAT:** Peach State completed and submitted the required and relevant portions of its ISCAT for HSAG’s review. HSAG used responses from the ISCAT to complete the pre-on-site assessment of information systems.
- Medical record documentation:** Peach State completed the medical record section within the ISCAT. In addition, Peach State submitted the following documentation for review: medical record hybrid tools and instructions, training materials for medical record review (MRR) staff members, and policies and procedures outlining the processes for monitoring the accuracy of the reviews performed by the review staff members. To ensure the accuracy of the hybrid data being abstracted by the CMO, HSAG requested Peach State participate in the review of a convenience sample for selected hybrid measures.
- Source code (programming language) for performance measures:** Peach State contracted with a software vendor, Inovalon, to generate and calculate rates for the performance measures under review by HSAG. The source code review was conducted via multiple web-assisted sessions where Inovalon displayed the source code for each measure and explained its rate generation and data integration processes to HSAG’s source code review team.
- Supporting documentation:** HSAG requested documentation that would provide reviewers with additional information to complete the validation process, including policies and procedures, file layouts, system flow diagrams, system log files, and data collection process descriptions. HSAG reviewed all supporting documentation, identifying issues or areas needing clarification for further follow-up.
- Rate Review:** Upon receiving the calculated rates from Peach State, HSAG conducted a review on the reasonableness and integrity of the rates. The review included trending with prior rates and comparison of rates across all CMOs.

On-Site Activities

HSAG conducted an on-site visit with Peach State on April 22, 2019. HSAG collected information using several methods, including interviews, system demonstrations, review of data output files, primary source verification, observation of data processing, and review of data reports. The on-site visit activities are described as follows:

- **Opening meeting:** The opening meeting included an introduction of the validation team and key Peach State staff members involved in the PMV activities. The review purpose, the required documentation, basic meeting logistics, and queries to be performed were discussed.
- **Evaluation of system compliance:** The evaluation included a review of the information systems, focusing on the processing of claims and encounter data, provider data, patient data, and inpatient data. Additionally, the review evaluated the processes used to collect and calculate the performance measure rates, including accurate numerator and denominator identification and algorithmic compliance (which evaluated whether rate calculations were performed correctly, all data were combined appropriately, and numerator events were counted accurately).
- **Review of ISCAT and supporting documentation:** The review included processes used for collecting, storing, validating, and reporting performance measure rates. This session was designed to be interactive with key Peach State staff members so that HSAG could obtain a complete picture of all the steps taken to generate the performance measure rates. The goal of the session was to obtain a confidence level as to the degree of compliance with written documentation compared to actual processes. HSAG conducted interviews to confirm findings from the documentation review, expand or clarify outstanding issues, and ascertain that written policies and procedures were used and followed in daily practice.
- **Overview of data integration and control procedures:** The overview included discussion and observation of source code logic, a review of how all data sources were combined, and a review of how the analytic file was produced for the reporting of selected performance measure rates. HSAG performed primary source verification to further validate the output files, reviewed backup documentation on data integration, and addressed data control and security procedures. HSAG also reviewed preliminary rates during this session, if available.
- **Closing conference:** The closing conference included a summation of preliminary findings based on the review of the ISCAT and the on-site visit, and revisited the documentation requirements for any post-visit activities.

HSAG conducted several interviews with key Peach State staff members who were involved with performance measure reporting.

Table 4 displays a list of key Peach State interviewees:

Table 4—List of Peach State Health Plan Interviewees

Name	Title
Tawonna Ingram	Senior Director, Quality Improvement
Alfred Miller	Director, Quality Improvement
Michael Strobel	Vice President, Quality Improvement
Chevron Carderas	Vice President, Operations
Clyde White	Chief Operating Officer
Tammy Sanchez	Manager, Vendor Oversight
Rayshawn Clay	Vice President, Operations
Susan Sasser	Director
Carol Brinkley	Manager
Debra Peterson-Smith	Chief Performance Officer
Guilherme Alves	Data Analyst
Monet Harrell	Data Analyst
Chris Wilde	Senior Manager

Data Integration, Data Control, and Performance Measure Documentation

There are several aspects crucial to the calculation of performance measure rates. These include data integration, data control, and documentation of performance measure rate calculations. Each of the following sections describes the validation processes used and the validation findings. For more detailed information, see Appendix A of this report.

Data Integration

Accurate data integration is essential for calculating valid performance measure rates. The steps used to combine various data sources (including claims/encounter data, eligibility data, and other administrative data) must be carefully controlled and validated. HSAG validated the data integration process used by Peach State, which included a review of file consolidations or extracts, a comparison of source data to warehouse files, data integration documentation, source code, production activity logs, and linking mechanisms. Overall, HSAG determined that the data integration processes in place at Peach State were:

- Acceptable
- Not acceptable

Data Control

Peach State's organizational infrastructure must support all necessary information systems; and its quality assurance practices and backup procedures must be sound to ensure timely and accurate processing of data, and to provide data protection in the event of a disaster. HSAG validated the data control processes Peach State used which included a review of disaster recovery procedures, data backup protocols, and related policies and procedures. Overall, HSAG determined that the data control processes in place at Peach State were:

- Acceptable
- Not acceptable

Performance Measure Documentation

Sufficient, complete documentation is necessary to support validation activities. While interviews and system demonstrations provided supplementary information, the majority of the validation review findings were based on documentation provided by Peach State. HSAG reviewed all related documentation, which included the completed Roadmap, job logs, computer programming code, output files, work flow diagrams, narrative descriptions of performance measure calculations, and other related documentation. Overall, HSAG determined that the documentation of performance measure rate calculations by Peach State was:

- Acceptable
- Not acceptable

Validation Results

HSAG evaluated Peach State's data systems for the processing of each data type used for reporting DCH performance measure rates. General findings are indicated below.

Medical Service Data (Claims and Encounters)

Peach State's medical services data system remained unchanged since the previous review. Peach State used AMISYS as its primary claims processing system, which has been operational for several years. AMISYS captured all relevant fields for PMV reporting.

During the measurement year, there were no significant changes to the system other than usual maintenance and minor upgrades, limited to provider contract and benefit maintenance. The CMO continued to capture most of its claims electronically. The small number of paper claims received were either for services that required additional documentation, such as medical records, or services rendered by out-of-network providers. Paper claims were submitted to Peach State's vendor for scanning. The scanning vendor then transmitted the paper claims back to Peach State in standard 837 electronic format for processing in AMISYS.

Peach State continued to have very little manual intervention for claims processing. Most of the manual steps in processing were due to high-dollar claims that required supervisor approval. As in previous audits, HSAG reviewed the coding schemes to determine if nonstandard coding was used. Peach State did not use any nonstandard coding during the measurement year.

Peach State's AMISYS system captured primary, secondary, and modifier codes appropriately. Coding updates to the AMISYS system were made annually to ensure the most recent coding schemes were captured. More than 95 percent of Peach State providers continued to be reimbursed based on an FFS payment model, which ensured that claims were submitted in a timely manner. HSAG reviewed the outstanding incurred but not reported (IBNR) report and found that most claims were received within 30 days during the measurement year. Peach State's turnaround time statistics also showed that most claims were processed within 30 days, as was shown in last year's review.

HSAG had no concerns with Peach State's claims and encounter data processes.

Enrollment Data

There were no changes to the enrollment process from the previous year. Peach State's enrollment data were housed in the AMISYS system, and no changes were made to the system since the previous year's audit. Enrollment data were still received daily and monthly from the State. New members were processed and entered into AMISYS using electronic methods. Occasionally, enrollment data were added manually upon request by the State. Peach State's load program contained logic for cross-checking manually entered member information to avoid duplicate records. Peach State performed monthly reconciliation of enrollment data to ensure all member information was complete and accurate.

Additionally, Peach State submitted enrollment files to its external vendors for processing. HSAG verified that the product and rate types which distinguish the Planning for Healthy Babies® (P4HB®) population in AMISYS were properly excluded by the CMO before the final rates were calculated.

New members were processed and entered into the AMISYS Advance system. The automated process of enrollment at Peach State included translation and compliance validation of the 834 file and loading of the data into AMISYS. The load program also identified members that were previously entered manually and updated their information, avoiding duplicate entries.

Peach State also processed enrollment changes. Enrollment changes were made primarily via the systematic loads after a change was received in the State files. Change requests submitted via telephone were updated manually by enrollment processors.

HSAG selected a sample of members from several administrative numerators and verified that the members were compliant with the measure specifications. HSAG verified age, gender, and enrollment history along with diagnosis and procedure codes. No issues were found during the system review.

HSAG had no concerns with Peach State's enrollment data processes.

Provider Data

There were no changes to the provider process year over year. Peach State continued to use two systems for provider processing, Portico and AMISYS. Provider files were first loaded into Peach State's Portico system where the provider began the credentialing process. Once the provider was credentialed, the provider information would be loaded into AMISYS. Peach State had a process in place for validating provider information daily to ensure both systems contained identical demographic information. Specialties were validated in Portico and then matched with AMISYS.

The two systems were linked by the unique provider identification number. No significant changes were made to the systems during the measurement year, other than provider maintenance.

HSAG selected a random primary care provider and a facility to review during the on-site audit. Peach State was able to show that the provider specialty matched all systems for both professional and facility providers. The audit team had no concerns upon inspection of the data as the data from both systems matched.

AMISYS maintained all relevant information required for performance measure reporting. Both Portico and AMISYS contained unique identifiers and captured identical information as expected.

HSAG had no concerns with Peach State's provider data processing.

Medical Record Review Validation (MRRV)

Table 5—MRRV Results for Peach State Health Plan

Performance Measure	Initial Sample Size	Findings	Follow-up	Final Results
<i>Colorectal Cancer Screening</i>	10	No concerns	None	R
<i>Developmental Screening in the First Three Years of Life</i>	7	No concerns	None	R
<i>Screening for Depression and Follow-Up Plan (Ages 12–17)</i>	16	No concerns	None	R
<i>Screening for Depression and Follow-Up Plan (Ages 18 and Older)</i>	16	No concerns	None	R

Supplemental Data

Supplemental data were not evaluated as part of the PMV audit.

Data Integration

Peach State’s data integration process did not change from the previous year’s review. Peach State continued to use Inovalon software for performance measure production but migrated to the new version of Inovalon’s QSI product, QSI Excel. Peach State indicated that there were no significant issues with the migration, and no concerns were identified during on-site primary source verification.

Peach State consistently reviewed the data quality reports from QSI to ensure all data were captured and that the CMO followed up on all data errors. Peach State had a two-step validation process that logged records submitted with the file name and record counts. Files with the same name were matched against each other to determine if the record counts matched. The second-tier validation was conducted to determine error counts and error reasons.

Peach State conducted a full refresh of data rather than incremental data loads. This process captured all changes that may have occurred after the initial data were loaded.

HSAG verified that hospice members were not included in any data files. All hospice members were flagged through claims using the HEDIS code sets for hospice. This flagging was completed within Inovalon’s software.

Members with duplicate identifiers were mapped to a unique member identifier in AMISYS, and all claims were mapped to the new identifier, ensuring that all claims for a member were captured along with his or her continuous enrollment segments. Peach State’s corporate team, Centene, ran monthly

reports from Inovalon’s software to review data regularly. Centene frequently produced month-over-month comparison reports to ensure data were complete and accurate.

HSAG conducted primary source verification on the *Screening for Depression and Follow-Up Plan (Ages 18 and Older)*, *Screening for Depression and Follow-Up Plan (Ages 12–17)*, and *Colorectal Cancer Screening* measures. All samples reviewed were found to be compliant with the specifications.

HSAG had no concerns with Peach State’s data integration process.

Performance Measure Specific Findings

Based on all validation activities, HSAG determined validation results for each performance measure rate. HSAG provided an audit result for each performance measure as defined in Table 6.

Table 6—Audit Results and Definitions for Performance Measures

Reportable (R)	The CMO followed the State’s specifications and produced a reportable rate or result for the measure.
Not Reportable (NR)	The calculated rate was materially biased.
Not Applicable (NA)	The CMO followed the State’s specifications, but the denominator was too small (<30) to report a valid rate.

According to the CMS protocol, the audit result for each performance measure rate is determined by the magnitude of the errors detected for the audit elements, not by the number of audit elements determined to be “Not Reportable.” It is possible for a single audit element to receive an audit result of “NR” when the impact of the error associated with that element biased the reported performance measure rate more than 5 percentage points. Conversely, it is also possible that several audit element errors may have little impact on the reported rate, leading to an audit result of “R.”

Table 7 displays the key review findings and final audit results for Peach State for each performance measure rate. For additional information regarding performance measure rates, see Appendix C of this report.

Table 7—Key Review Findings and Audit Results for Peach State Health Plan

Performance Measures		Key Review Findings	Audit Results
1.	<i>Colorectal Cancer Screening</i>	No Concerns	R
2.	<i>Developmental Screening in the First Three Years of Life</i>	No Concerns	R
3.	<i>Diabetes Short-Term Complications Admission Rate</i>	No Concerns	R
4.	<i>Heart Failure Admission Rate</i>	No Concerns	R

	Performance Measures	Key Review Findings	Audit Results
5.	<i>Live Births Weighing Less Than 2,500 Grams</i>	No Concerns	R
6.	<i>Percentage of Eligibles Who Received Preventive Dental Services</i> (reported at the county level [159 counties])	No Concerns	R
7.	<i>Screening for Depression and Follow-Up Plan (Ages 12–17)</i>	No Concerns	R
8.	<i>Screening for Depression and Follow-Up Plan (Ages 18 and Older)</i>	No Concerns	R

Appendix A. Data Integration and Control Findings

Documentation Worksheet

CMO Name:	Peach State Health Plan
On-Site Visit Date:	April 22, 2019
Reviewers:	Allen Iovannisci, MS, CHCA, CPHQ

Table A-1—Data Integration and Control Findings for Peach State Health Plan

Data Integration and Control Element	Met	Not Met	N/A	Comments
Accuracy of data transfers to assigned performance measure data repository.				
The CMO accurately and completely processes transfer data from the transaction files (e.g., membership, provider, encounter/claims) into the performance measure data repository used to keep the data until the calculations of the performance measure rates have been completed and validated.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
Samples of data from the performance measure data repository are complete and accurate.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
Accuracy of file consolidations, extracts, and derivations.				
The CMO's processes to consolidate diversified files and to extract required information from the performance measure data repository are appropriate.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
Actual results of file consolidations or extracts are consistent with those that should have resulted according to documented algorithms or specifications.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
Procedures for coordinating the activities of multiple subcontractors ensure the accurate, timely, and complete integration of data into the performance measure database.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
Computer program reports or documentation reflect vendor coordination activities, and no data necessary for performance measure reporting are lost or inappropriately modified during transfer.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
If the CMO uses a performance measure data repository, its structure and format facilitates any required programming necessary to calculate and report required performance measure rates.				
The performance measure data repository's design, program flow charts, and source codes enable analyses and reports.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns

Data Integration and Control Element	Met	Not Met	N/A	Comments
Proper linkage mechanisms are employed to join data from all necessary sources (e.g., identifying a member with a given disease/condition).	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
Assurance of effective management of report production and of the reporting software.				
Documentation governing the production process, including CMO production activity logs and the CMO staff review of report runs, is adequate.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
Prescribed data cutoff dates are followed.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
The CMO retains copies of files or databases used for performance measure reporting in case results need to be reproduced.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
The reporting software program is properly documented with respect to every aspect of the performance measure data repository, including building, maintaining, managing, testing, and report production.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
The CMO's processes and documentation comply with the CMO standards associated with reporting program specifications, code review, and testing.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns

Appendix B. Denominator and Numerator Validation Findings

Reviewer Worksheets

CMO Name:	Peach State Health Plan
On-Site Visit Date:	April 22, 2019
Reviewers:	Allen Iovannisci, MS, CHCA, CPHQ; Mariyah Badani, JD, MBA, CHCA

Table B-1—Denominator Validation Findings for Peach State Health Plan

Audit Element	Met	Not Met	N/A	Comments
For each of the performance measures, all members of the relevant populations identified in the performance measure specifications are included in the population from which the denominator is produced.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
Adequate programming logic or source code exists to appropriately identify all relevant members of the specified denominator population for each of the performance measures.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
The CMO correctly calculates member months and member years if applicable to the performance measure.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
The CMO properly evaluates the completeness and accuracy of any codes used to identify medical events, such as diagnoses, procedures, or prescriptions, and these codes are appropriately identified and applied as specified in each performance measure.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
If any time parameters are required by the specifications of the performance measure, they are followed (e.g., cutoff dates for data collection, counting 30 calendar days after discharge from a hospital).	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
Exclusion criteria included in the performance measure specifications are followed.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
Systems or methods used by the CMO to estimate populations when they cannot be accurately or completely counted (e.g., newborns) are valid.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Not applicable

Table B-2—Numerator Validation Findings for Peach State Health Plan

Audit Element	Met	Not Met	N/A	Comments
The CMO uses the appropriate data, including linked data from separate data sets, to identify the entire at-risk population.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
Qualifying medical events (such as diagnoses, procedures, prescriptions, etc.) are properly identified and confirmed for inclusion in terms of time and services.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
The CMO avoids or eliminates all double-counted members or numerator events.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns
Any nonstandard codes used in determining the numerator are mapped to a standard coding scheme in a manner that is consistent, complete, and reproducible, as evidenced by a review of the programming logic or a demonstration of the program.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Nonstandard codes were not used
If any time parameters are required by the specifications of the performance measure, they are followed (i.e., the measured event occurred during the time period specified or defined in the performance measure).	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	No concerns

Appendix C. Performance Measure Rate Submission File

Appendix C contains Peach State Health Plan’s final audited performance measure rate submission file.

Appendix C: Department of Community Health, State of Georgia
Validated CY 2018 Performance Measures for Peach State

State Fiscal Year (SFY) 2019 Performance Measure Data Submission
for Georgia Care Management Organizations (CMOs)

Population: Medicaid Georgia Families (GF)

Reporting Year: SFY 2019/Measurement Period: Calendar Year (CY) 2018

H2019 Final Performance Measures Rates

Appendix C: Department of Community Health, State of Georgia
Validated CY 2018 Performance Measures for Peach State

Audit Review Table—To Be Completed by Auditor			
#	Performance Measure	Audit Designation	Comments
1	Colorectal Cancer Screening (COL)	R	
2	Developmental Screening in the First Three Years of Life (DEV-CH)	R	
3	Diabetes Short-Term Complications Admission Rate (PQI-01)	R	
4	Heart Failure Admission Rate (PQI-08)	R	
5	Live Births Weighing Less Than 2,500 Grams (PQI-09)	R	Reported as a percentage, instead of per live births. Reported at the county level (159 counties total).
6	Percentage of Eligibles Who Received Preventive Dental Services (PDENT-CH)	R	
7	Screening for Depression and Follow-Up Plan (CDF-AD)	R	
8	Screening for Depression and Follow-Up Plan (CDF-CH)	R	

Appendix C: Department of Community Health, State of Georgia
Validated CY 2018 Performance Measures for Peach State

Colorectal Cancer Screening (COL)	
Data Element	General Measure Data
Reporting year	SFY 2019
Measurement period	CY 2018
Data collection methodology	H
Eligible population	739
Number of numerator events by administrative data in eligible population (before exclusions)	328
Current year's administrative rate (before exclusions)	44.38%
Minimum required sample size (MRSS)	411
Oversampling rate	2%
Number of oversample records	5
Number of numerator events by administrative data in MRSS	181
Administrative rate on MRSS	44.04%
Number of original sample records excluded because of valid data errors	0
Number of administrative data records excluded	0
Number of medical records excluded	0
Number of employee/dependent medical records excluded	0

Appendix C: Department of Community Health, State of Georgia
Validated CY 2018 Performance Measures for Peach State

Colorectal Cancer Screening (COL)	
Data Element	General Measure Data
Records added from the oversample list	0
Denominator	411
Numerator events by administrative data	181
Numerator events by medical records	10
Numerator events by supplemental data	1
Reported rate	46.72%

Appendix C: Department of Community Health, State of Georgia
Validated CY 2018 Performance Measures for Peach State

Developmental Screening in the First Three Years of Life (DEV-CH)					
Data Element	General Measure Data	Age 1	Age 2	Age 3	Total (Ages 1-3)
Reporting Year	SFY 2019				
Measurement period	CY 2018				
Data collection Methodology	H				
Eligible population		17,021	11,518	12,467	41,006
Denominator		137	137	137	411
Numerator events by administrative data		71	91	75	237
Numerator events by medical records		4	0	3	7
Numerator total		75	91	78	244
Reported rate		54.74%	66.42%	56.93%	59.37%

Appendix C: Department of Community Health, State of Georgia
Validated CY 2018 Performance Measures for Peach State

Diabetes Short-Term Complications Admission Rate (PQI-01)				
Data Element	General Measure Data	Ages 18-64	Ages 65+	All Ages
Reporting year	SFY 2019			
Measurement period	CY 2018			
Data collection methodology	A			
Eligible population (total member months)		832,454	165	832,619
Numerator events by administrative data		108	0	108
Reported rate (per 100,000 member months)		12.97	0.00	12.97

Appendix C: Department of Community Health, State of Georgia
Validated CY 2018 Performance Measures for Peach State

Heart Failure Admission Rate (PQI-08)				
Data Element	General Measure Data	Ages 18-64	Ages 65+	All Ages
Reporting year	SFY 2019			
Measurement period	CY 2018			
Data collection methodology	A			
Eligible population (total member months)		832,454	165	832,619
Numerator events by administrative data		43	0	43
Reported rate (per 100,000 member months)		5.17	0.00	5.16

Note: CMS requires to report ages 18-64 and 65+ only.
