

Ambulatory Surgical Treatment centers (ASTC) are facilities not under the operation or control of a hospital, primarily providing surgical treatment to patients who do not require hospitalization. ASTC do not admit patients for treatment which normally require overnight stay, nor provide accommodations for treatment of patients for periods of 24 hours or longer.

Exemptions:

Federally owned and operated facilities
Physicians' and dentists' private offices and treatment rooms where practitioners see, consult with and treat patients

Type Regulation:

State: A facility must obtain a permit. However, certain facilities must first obtain certificate of need in order to be eligible for a permit.

Federal: A center choosing to participate in federal programs must be certified.

Legal Authority:

O.C.G.A. § 31-6-40 Certificate of need required for new institutional health services; exemptions

O.C.G.A. § 31-7-1 Definitions

O.C.G.A. § 31-7-3 Requirements for permits to operate institutions

O.C.G.A. § 31-7-5 Exemptions from permit requirements
