Mission

The mission of the Department of Community Health is to provide access to affordable, quality health care to Georgians through effective planning, purchasing, and oversight.

We are dedicated to A Healthy Georgia.
Health Information Technology

Facilitates various aspects of Georgia’s Health IT infrastructure that makes it possible for providers and patients to better manage their care through secure use and exchange of health information. Health IT programs and initiatives include oversight of the Promoting Interoperability (PI) Program, coordination with the Georgia Health Information Network, advancing Population Health Management including initiatives such as CQM System Engagement and Personal Health System promotion (TEFT grant).
Partnering for Success

The Department of Community Health and the Georgia Health Information Network (GaHIN) work closely to ensure that providers and caregivers can access patient health information at the point of care to optimize outcomes and reduce costs.
Access for Authorized Medical Providers

- Clinical Viewer allows providers without an EHR to query GaHIN network
- Configured through GAMMIS Web Portal
- One click to log in to the GaHIN network
- Access to all available patient records and reports
Access for Authorized Medical Providers

- Log into the GAMMIS system
- Select ‘Providers’ from the main menu bar
- Select ‘Patient Profile’ from the submenu bar
- The Patient Profile page will provide access to
  - GaHIN information
  - Agreement list
  - Acceptance panels
- View all Agreements
- Accept all Agreements
- Click on ‘Access to GaHIN’
- Accept the Disclaimer
Clinical Viewer – Access Through GAMMIS

ICD-10 Implementation Announcement - Hewlett Packard Enterprise will begin accepting ICD-10 diagnoses and surgical procedures on October 1, 2015. Per the federal mandate, claims submitted for services rendered on or after October 1, 2015 must include ICD-10 codes. Claims submitted for services rendered before October 1, 2015 may continue to include ICD-9 codes. Refer to the UB 04 billing manual for ICD-10 rules specific to this claim type. ICD-10 has no direct impact on Current Procedural Terminology (CPT) and Healthcare Common Procedure Coding System (HCPCS). Please continue to review the announcements provided on the Provider Notices page that is found under the Provider Information menu for details regarding the migration to ICD-10 as well as any future notifications from CMS if the October 1, 2015 date is changed in the future.
Step 1 – Click on Patient Profile
Step 1 – Click on Patient Profile

Introducing GaHIN

The GaHIN link will provide you with the ability to query for individual patient medical information from all providers actively participating and exchanging patient medical information over the network.

The GaHIN link is not accessible because the provider has not yet accepted the GaHIN Terms and Conditions.
Step 2 – Read and Sign the Forms

Introduction to GaHIN

The GaHIN link will provide you with the ability to query for individual patient medical information from all providers actively participating and exchanging patient medical information over the network.

The GaHIN link is not accessible because the provider has not yet accepted the GaHIN Terms and Conditions.

GaHIN Terms and Conditions

The terms and conditions must be agreed to in order for the GaHIN Access link to be available. Each document in the Agreement List must be viewed in order for the Agreement Acceptance panel to be available.

PDF Reader Required

NOTE: If you don't have a PDF reader already installed, Adobe Acrobat Reader is required to view these documents. Click here to obtain the latest version of the free Adobe Reader.

File Download Issues

Some users may have difficulty downloading files. Often this is caused by pop-up windows being blocked or by security settings in the browser. Click here for help with download issues.

I agree to the GaHIN Terms and Conditions
Accept the Disclaimer

- This disclaimer will appear
- Select OK to access GaHIN
We have developed training on the simple steps needed to sign up to access GaHIN as well as how to navigate within the electronic record.

- Part 1 – accepting the Terms and Conditions required prior to access
- Part 2 – primary functions and navigation within the GAMMIS Clinical Viewer

https://truven.adobeconnect.com/gammis-training

You must have an active, authorized GAMMIS login and accept the terms and conditions (one time) prior to gaining access to GaHIN data.

*Note:* Your facility may block streaming content on the internet, including content streaming from the truvenhealth.com domain. In this case, you will need to contact your IT Team for information on how to access streaming content.
GaHIN
Georgia’s Statewide Health Information Exchange
GaHIN
Georgia’s Statewide Health Information Exchange

Mission:
To facilitate a statewide health information network for Georgia that is trusted and valued by all stakeholders; works to improve health care coordination and reduces costs; and establishes a solid foundation for long-term financial sustainability.

Vision:
To create a healthier Georgia through the use and exchange of electronic health information to improve patient-centered health care, increase efficiencies and improve the health of the state’s entire population.

Purpose:
To close the patient information gap across care settings by electronically connecting disparate systems and data sources to support improved quality of care, better health outcomes and reductions in cost.
GaHIN Network Model

Federated-hybrid model, not a central repository of clinical data

- Patient information remains with the treating provider and only flows when there is authorization
- GaHIN makes an individual data repository available to Members directly connected to the Network
Robust Integrated Patient Search (Query)
Providers can use their EHR to quickly access patient health data from hospitals, physician practices, state health systems and much more

As of August 2018
- ~12,942 connected providers
- 1,474,326 queries
- 31,502,440 MPI records

2017 Totals
- ~10,644 connected providers
- 1,137,069 queries
- 29,482,458 MPI records
**Connected Organizations**

**State Agencies**
- GA Medicaid/Department of Community Health (DCH)
- GA Department of Public Health (DPH)
- GA Division of Families and Children Services (DFCS)
- GA Department of Juvenile Justice (DJJ)
- GA Department of Behavioral Health and Developmental Disabilities (DBHDD)

**Health Systems/Hospitals**
- Children’s Healthcare of Atlanta (Epic)
- Emory Healthcare (Cerner)
- Grady Health System (Epic)
- Gwinnett Health System (RelayHealth)

**Specialty Connections**
- Atlanta Gastroenterology Associates (Greenway)
- Georgia Partnership for Telehealth (Azalea)

**Care Management Organizations**
- Amerigroup (with IHE)
- CareSource
- Peach State
- WellCare

**National Exchange**
- Veterans Health Administration
- Department of Defense
- DaVita Healthcare Partners
- Alabama (AOHR)
- East Tennessee HIE (etHIN)
- South Carolina HIE (SCHIEx)
- North Carolina HIE (NCHIEA)

**Regional HIEs**
- Georgia Health Connect (GaHC) (Liaison)
- GRACHIE/Chatham HealthLink (Cerner)
- HealtheConnection (Cerner)
- HealthIE Georgia (Azalea)
In Process - Connections

• Department of Public Health – electronic data submission to registries
• Care Plan submissions from CareSource, WellCare and Peach State
• WellStar Health System (Georgia’s largest health system):
  – 11 hospitals
  – 8 urgent care centers
  – 16 satellite diagnostic imaging centers
  – Two health parks and a pediatric center
  – One adult congregate living facility
  – Three skilled nursing facility
  – Three inpatient hospices
  – More than 1,000 physicians and advanced practice professionals in WellStar Medical Group
  – 225 medical office locations
  – 20,000 employees
  – More than 2,500 medical staff members
  – Uses the Epic EHR system, will exchange patient information with GaHIN from all of their Epic-connected facilities
