

**GEORGIA MEDICAID FEE-FOR-SERVICE
DIABETIC SUPPLIES, INSULIN PENS PA SUMMARY**

Preferred	Non-Preferred
<p>Apidra pens/cartridges (insulin glulisine)* Baqsimi (glucagon nasal powder) Glucagon injection generic except kit by Fresenius (NDC 63323-0582-82)* Glucagen (glucagon injection)* Humalog 100 units/mL pens/cartridges (insulin lispro) Humalog Mix 50/50 pens/cartridges (insulin lispro/lispro protamine) Humalog Mix 75/25 pens/cartridges (insulin lispro/lispro protamine) Humulin 70/30 pens/cartridges (insulin NPH/regular) Humulin R U-500 pens/cartridges (insulin regular concentrate) Insulin aspart pens/cartridges generic Insulin aspart/aspart protamine mix 70/30 pens/cartridges generic Insulin glargine 100 units/mL pens/cartridges generic* Insulin lispro 100 units/mL pens/cartridges generic Insulin syringes Ketone test strips Lancet devices and lancets Lantus pens/cartridges (insulin glargine 100 units/mL)* Levemir pens/cartridges (insulin detemir)* Novolin N pens/cartridges (insulin NPH) Novolin R pens/cartridges (insulin regular) Novolog pens/cartridges (insulin aspart) Novolog Mix 70/30 pens/cartridges (insulin aspart/aspart protamine) Pen needles True Metrix blood glucose test strips</p>	<p>Basaglar pens/cartridges (insulin glargine 100 units/mL) Fiasp pens/cartridges (insulin aspart with niacinamide) Gvoke (glucagon injection) Humalog 200 units/mL pens/cartridges (insulin lispro) Humulin N pens/cartridges (insulin NPH) Insulin lispro/lispro protamine mix 75/25 pens/cartridges generic Lyumjev pens/cartridges (insulin lispro-aabc) Novolin 70/30 pens/cartridges (insulin NPH/regular) Semglee pens/cartridges (insulin glargine 100 units/mL) Toujeo pens/cartridges (insulin glargine 300 units/mL) Tresiba pens/cartridges (insulin degludec) Zegalogue (dasiglucagon)</p>

*Does not require PA; The drug names above include all available pen/cartridge/syringe formulations under the same primary name unless otherwise stated.

LENGTH OF AUTHORIZATION: 1 year

NOTES:

- Apidra, Glucagon generic, Glucagen, insulin glargine 100 units/mL generic, Lantus and Levemir pens/cartridges do not require prior authorization (PA). Other preferred insulin pens/cartridges do not require PA for members younger than 21 years of age. Non-preferred insulin pens/cartridges require PA for all ages.
- Please refer to the covered diabetic supplies listing for covered NDCs located at: www.mmis.georgia.gov → Pharmacy → Other Documents → Covered Diabetic Supplies.
- For preferred test strips and lancets, the pharmacy can submit the claim with an ICD-10 code for gestational diabetes (O24.410, O24.414, O24.419, O24.420, O24.424, O24.429, O24.430, O24.434, O24.439, O99.810, O99.814, or O99.815) to bypass reject 75 (PA).

PA CRITERIA:

Baqsimi

- ❖ Approvable for members who have failed to achieve an adequate response with generic glucagon injection or for members or members with caregivers who are unable to use generic glucagon injection.

Humalog Pens/Cartridges except 200 units/mL, Humalog Mix 50/50 Pens/Cartridges, Humalog Mix 75/25 Pens/Cartridges, Humulin 70/30 Pens/Cartridges, Humulin R U-500 Pens/Cartridges, Insulin Aspart Pens/Cartridges Generic, Insulin Aspart/Aspart Protamine Mix 70/30 Pens/Cartridges Generic, Insulin Lispro 100 units/mL Pens/Cartridges Generic, Novolin N Pens/Cartridges, Novolin R Pens/Cartridges, Novolog Pens/Cartridges and Novolog Mix 70/30 Pens/Cartridges

- ❖ Approvable for members or members with caregivers with poor visual acuity or problems with manual dexterity.

Insulin Syringes

- ❖ Approvable for members using insulin, desmopressin/DDAVP, enoxaparin/Lovenox, Epogen, Granix, Leukine, Neupogen, Nivestym or growth hormone vials.

Ketone Test Strips, Lancets and True Metrix Test Strips

- ❖ Approvable for members with a diagnosis of type 1, type 2 or gestational diabetes.

Pen Needles

- ❖ Approvable for members using insulin, Forteo, Byetta, Victoza, SymlinPen or growth hormone pens.

Basaglar, Semglee and Toujeo Pens/Cartridges

- ❖ For members or members with caregivers with poor visual acuity or problems with manual dexterity, prescriber must submit a written letter of medical necessity stating the reasons the preferred products, generic insulin glargine 100 units/mL pens/cartridges, Lantus pens/cartridges and Levemir pens/cartridges, are not appropriate for the member.

Fiasp Pens/Cartridges, Humalog 200 units/mL and Lyumjev Pens/Cartridges

- ❖ For members or members with caregivers with poor visual acuity or problems with manual dexterity, prescriber must submit a written letter of medical necessity stating the reasons the preferred products, Apidra pens/cartridges, Humalog/generic insulin lispro 100 units/mL pens/cartridges and Novolog/generic insulin aspart pens/cartridges, are not appropriate for the member.

Gvoke and Zegalogue

- ❖ Prescriber must submit a written letter of medical necessity stating the reasons the preferred products, Baqsimi, generic glucagon injection and brand Glucagen injection with training on proper use, are not appropriate for the member.

Humulin N Pens/Cartridges

- ❖ For members or members with caregivers with poor visual acuity or problems with manual dexterity, prescriber must submit a written letter of medical necessity stating the reasons the preferred product, Novolin N pens/cartridges, is not appropriate for the member.

Insulin Lispro/Lispro Protamine Mix 75/25 Pens/Cartridges Generic

- ❖ For members or members with caregivers with poor visual acuity or problems with manual dexterity, prescriber must submit a written letter of medical necessity stating the reasons the preferred product, brand Humalog 75/25 pens/cartridges, is not appropriate for the member.

Novolin 70/30 Pens/Cartridges

- ❖ For members or members with caregivers with poor visual acuity or problems with manual dexterity, prescriber must submit a written letter of medical necessity stating the reasons the preferred product, Humulin 70/30 pens/cartridges, is not appropriate for the member.

Tresiba Pens/Cartridges

- ❖ Approvable for members less than 2 years of age with caregivers with poor visual acuity or problems with manual dexterity.
- ❖ Approvable for members 2 years of age or older who have poor visual acuity or problems with manual dexterity or members with caregivers who have poor visual acuity or problems with manual dexterity and who have experienced inadequate response, allergies, contraindications, drug-drug interactions or intolerable side effects with the preferred products, generic insulin glargine 100 units/mL or Lantus and Levemir.

QLL CRITERIA:

True Metrix Test Strips and Lancets

- ◆ An authorization to exceed the QLL may be granted for members with a hemoglobin A1c level of 7 or higher who test more than 5 times per day. If the hemoglobin A1c level is less than 7, a written letter of medical necessity must be submitted stating the reasons that testing blood glucose more than 5 times per day is required.

Insulin Syringes

- ◆ An authorization to exceed the QLL may be granted for members who use more than 4 insulin syringes per day.

Pen Needles

- ◆ An authorization to exceed the QLL may be granted for members who use more than 4 pen needles per day.

EXCEPTIONS:

- Exceptions to these conditions of coverage are considered through the prior authorization process.
- The Prior Authorization process may be initiated by calling **OptumRx at 1-866-525-5827**.

PREFERRED DRUG LIST:
