

Georgia Pathways to Coverage Section 1115 Demonstration Monthly Monitoring Report Workbook (Version 1.0)

Overview: This workbook consists of monthly monitoring metrics for the Georgia Pathways to Coverage section 1115 demonstration for its qualifying hours and activities requirement component, which the state implemented on July 1, 2023. The state will also complete Quarterly Monitoring Reports in alignment with the state's CMS-approved Monitoring Protocol, which will include these monthly monitoring metrics and additional quarterly monitoring metrics.

Please note, although it may not be apparent to a sighted user, all cells of the Part A contain text to ensure digital accessibility and to comply with section 508 of the Rehabilitation Act; this text should not be removed or modified by the state.

Instructions: The state should complete the below information for each Monthly Monitoring Report Workbook.

Report Submission Date (Format: MM/DD/YYYY)	11/30/2023
Calendar Dates for Measurement Period (Format: MM/DD/YYYY - MM/DD/YYYY)	10/01/2023 - 10/31/2023
Technical Specifications Manual Version	Version 1.0

Instructions: The state should provide a brief, targeted executive summary to communicate key achievements, highlights, issues, and/or risks identified during the current reporting period for the demonstration. This summary should also identify: (1) updates on the implementation of new program components; (2) programmatic improvements (e.g., increased outreach or improved beneficiary notices); and (3) highlights of unexpected changes (e.g., unexpected increases or decreases in enrollment or complaints). Historical background or general descriptions of the waiver components should not be included. The executive summary should be brief with a recommended word limit of 500 words. However, if the state believes additional information is important, the state can choose to provide additional detail beyond the recommended word limit.

Executive summary

The executive summary should be reported in the fillable box below.

October 2023

During the month of October 2023, applications were processed by Georgia workers for Pathways eligibility. While the typical Standard of Promptness for Medicaid application processing is 45 days, some applications are able to be processed in less than 45 days.

The State of Georgia defines a Pathways applicant and a Potential Pathways Transferee as any individual who submitted an application in which they i) elected to be considered for Pathways, ii) acknowledged they read the requirements of the program, and iii) submitted at least one hour of qualifying activities or a reasonable modification as part of their application.

In October 2023, there were 47,620 individuals who applied for Medicaid, were potentially ineligible for traditional Medicaid, and were presented the Pathways screens (sum of metrics S3 and S21). Of these individuals, 15,587 of them elected to be considered for Pathways and acknowledged that they read the requirements of the program (metric S37). Of these 15,452 individuals, 6,857 individuals were considered 'Pathways Applicants' or 'Potential Pathways Transferees' (metrics S10 and S27).

In October 2023, the State of Georgia processed eligibility for 4,159 individuals (sum of metrics S12, S14, S29, S31, and S36). Of these 4,159 individuals, 603 had their eligibility approved (metric S36) in October 2023, 1,551 individuals had their eligibility denied (sum of metrics S14 and S31), and 2,005 individuals (sum of metrics S12 and S29) were determined eligible for traditional Medicaid in October 2023. As of October 2023, there are 1,074 individuals enrolled in Pathways (S40).

As of October 2023, there are 10,919 Pathways Applicants and Potential Pathways Transferees that have yet to have their eligibility processed.

Note that metrics S1, S3, S4, S5, S6, S7, S8, S10, S19, S21, S22, S23, S24, S25, S27 and S37 reflect an individual's actions and interactions with the Pathways application, the Pathways screens, and the way the individual responded to the questions & prompts presented.

Note that metrics S2, S9, S12, S13, S14, S15, S20, S26, S29, S30, S31, S32, S36, S40, S41, S43 pertain to individuals with completed applications where an eligibility determination has been made during the reporting month.

Note that metrics S1, S2, S9, S19, S20, S26 and S43 are newly phased in for the October 2023 Monthly Monitoring Report.

Note that metrics S47 and S48 are not included in this report because the State has elected to postpone suspensions and terminations until early 2024.

Instructions:

Metrics Reporting

For each metric, the state should report the metric value in column D. Metrics S11_GA, S28_GA, S36_GA, S37_GA, S38_GA, S39_GA, and S46_GA can be derived from other metrics and will be calculated automatically from other metric values reported by the state.

The state should report monthly monitoring metrics for the measurement period for a given month, on the last day of the following month, or on the first following business day if the last day of a month falls on a weekend or a holiday. For example, the state should report monthly monitoring metrics with a measurement period for the month of September (09/01/2023 - 09/30/2023) on October 31, 2023. Please note that for the measurement periods for the months of July 2023 (07/01/2023 - 07/31/2023) and August 2023 (08/01/2023 - 08/31/2023), the state should report monthly monitoring metrics on October 2, 2023 in two separate Monthly Monitoring Report Workbooks.

Reporting Issues

The state should provide detailed information about any data or reporting issues for each monthly monitoring metric that prevents reporting in alignment with the monthly monitoring metrics technical specifications (e.g., difficulty obtaining necessary data, such as paper applications or reporting is pending data system updates projected to occur on [timeline] or data undergoing testing and quality control checks) in column E. This includes discussing any metrics that the state will retroactively report, phase in at a later time, and/or instances where metrics are only representative of a portion of individuals (for example, if a metric only captures online applicants).

In addition, the state should indicate the status of each reporting issue by using the drop-down option to select “New,” “Ongoing,” or “Resolved” in column F. For “New” reporting issues, the state should include known or suspected causes of the issue, if applicable. The state should provide updates on any data or reporting issues described in previous workbooks with status “New” or “Ongoing” in columns E and F. The state should also copy the information entered into columns E and F from the previous Monthly Monitoring Report Workbook into its current workbook. Any unresolved data and reporting issues should be identified as “Ongoing” from the drop-down options in column (F) and provide an update. For resolved data or reporting issues, the state should select “Resolved” from the drop-down and provide an update on how the issue was resolved. Once an issue is resolved, the state should not include it in subsequent workbooks.

This metric will be available when the suspension and termination functionality is reactivated	Ongoing
S53_GA	Pathways beneficiaries disenrolled from the demonstration for noncompliance	Number of demonstration beneficiaries newly disenrolled from the demonstration for noncompliance with the qualifying hours and activities requirement and lost Medicaid coverage during the measurement period.		TBD first reporting date - The State has elected to postpone suspensions and terminations until early 2024. This metric will be available when the suspension and termination functionality is reactivated	Ongoing
S54_GA	Pathways beneficiaries disenrolled from the demonstration for noncompliance and not reenrolled	Number of demonstration beneficiaries disenrolled from the demonstration for noncompliance with the qualifying hours and activities requirement during the measurement period or any time during the prior three months and not reenrolled.		TBD first reporting date - The State has elected to postpone suspensions and terminations until early 2024. This metric will be available when the suspension and termination functionality is reactivated	Ongoing
Reinstatement and reenrollment^a					
S55_GA	Pathways beneficiaries whose benefits were reinstated after being in suspension status for noncompliance	Number of beneficiaries whose benefits were reinstated during the measurement period after suspension (i.e., enrolled in the demonstration, but not actively receiving benefits) in a prior month triggered by noncompliance with the qualifying hours and activities requirement.		Will be phased in 12/31/2023	Ongoing
S56_GA	Individuals who reapplied and were presented the Pathways screens after disenrollment for noncompliance	Number of individuals who reapplied and were shown the Pathways screens after being disenrolled from the demonstration for noncompliance.		Will be phased in 03/31/2024	Ongoing
S57_GA	Pathways beneficiaries who reenrolled in the demonstration after disenrollment for noncompliance	Number of beneficiaries reenrolled in the demonstration during the measurement period after disenrollment from the demonstration, including those reenrolling after successful appeal.		Will be phased in 03/31/2024	Ongoing
