DIRECT AWARD JUSTIFICATION

EMORY UNIVERSITY, SCHOOL OF MEDICINE

CMS/CMP - EMORY ANTIBIOTIC STEWARDSHIP TO IMPROVE LONG TERM CARE LIVES (EASIL) GRANT

AGENCY BACKGROUND	<p>The Georgia Department of Community Health (DCH) was created in 1999 by Senate Bill 241 and has the responsibility for insuring over two million people in the State of Georgia, maximizing the State's health care purchasing power, coordinating health planning for State agencies and proposing cost-effective solutions for reducing the number of uninsured. Within DCH, the Healthcare Facility Regulation Division (HFRD), is responsible for health care planning, licensing, certification and oversight of various health care facilities and services in Georgia. The division was created in 2009 as a result of the passage of two laws, HB 228 (2009) and SB 433 (2008). These laws transferred functions previously performed by the Office of Regulatory Services to DCH in 2009.</p> <p>In 2011, the division also became responsible for providing direction for the Certificate of Need (CON) program in recognition of the value of integrating the administration of health planning with health care regulation.</p>
PROGRAM OVERVIEW	<p>The Centers for Medicare & Medicaid Services (CMS) collects fines or civil monetary penalties (CMPs) which are Georgia's (GA) Medicaid portion of penalties assessed in CMP agreements between the U.S. Department of Health and Human Services and penalized nursing homes. Monies collected by CMS are transmitted to and kept in a fund managed by Georgia. CMP funds may be used by GA for any project that directly benefits facility residents in accordance with regulations. Project categories are as follows: direct improvement to quality of care; resident or family councils, culture change/quality of life; consumer information; transition preparation; training; and resident transition due to facility closure or downsizing. CMS has approval authority for the use of all civil money penalty funds proposed by GA and/or directly by CMS.</p> <p>HFRD manages licenses, monitors and inspects a variety of facilities and services including hospitals, assisted living facilities, personal home care homes and nursing homes facilities. The division investigates complaints and inspects health care facilities within Georgia.</p>
AWARD JUSTIFICATION	<p>Emory University, School of Medicine was awarded a civil money penalty (CMP) funds grant by CMS for \$98,437.00 to reduce the incidence of adverse effects of unnecessary antibiotic use in long-term care facility residents through antimicrobial stewardship enhancements.</p> <p>The overall project goals are to: (1) create a platform for enhancing nursing facility stewardship programs by incorporating enhanced microbiology data and assessment processes; and (2) reduce facility specific rates of Clostridium difficile (C. difficile) diarrheal infection by improving appropriate antibiotic prescribing for urinary tract infections. The impact of the project will be measured by assessing the data obtained through Emory University, School of Medicine's affiliated surveillance programs tracking antibiotic resistant infection in the Atlanta metropolitan area.</p>
AWARD(S)	TOTAL DIRECT AWARD FUNDS AVAILABLE: \$98,437.00
