Fact Sheet

Become a Certified Nurse Aide in Georgia

Background Information

Across the country, nursing home staff and residents consistently highlight staffing as their primary concern. In response, the Centers for Medicare & Medicaid Services (CMS) is launching a national Nursing Home Staffing Campaign aimed at increasing the number of nurses working in nursing homes and at the state agencies that inspect nursing homes for compliance with health and safety standards, ultimately improving and better protecting residents' health and safety.

As part of this national campaign, CMS has partnered with the Georgia Department of Community Health to expand the campaign in Georgia by improving their websites for nurse aide training to make it easier for individuals to find and enroll in training programs.

BecomeCNA.dch.ga.gov *Fast Facts*
