HEALTHCARE FACILITY REGULATION

REPEAL CHAPTER 290-5-45

AND

REPLACE WITH NEW CHAPTER 111-8-16

RULES AND REGULATIONS FOR DISASTER PREPAREDNESS PLANS

SYNOPSIS OF PROPOSED RULE CHANGES

STATEMENT OF PURPOSE: The Department of Community Health proposes to repeal the Rules for Disaster Preparedness Plans, Chapter 290-5-45, with a new Chapter number, 111-8-16. This change is necessary to reflect that the enforcement of the rules for disaster preparedness plans is the responsibility of the Department of Community Health rather than the Department of Human Resources, which has since been renamed as the Department of Human Services. These rules are being proposed pursuant to the authority granted the Department of Community Health in O.C.G.A. §§ 31-2-5, 31-2-6 and 31-2-7.

The proposed rules restate existing rules applicable to providers licensed by the Department of Community Health to develop and maintain disaster preparedness plans. In the formulation of the proposed new rules, the Department has considered the economic costs associated with the regulations and the impact on small businesses in the state. To the extent possible, the proposed rules do not impose excessive regulatory costs on the regulated entities while supporting the quality of care being delivered and the health and safety of the participants receiving care.

MAIN FEATURES OF THE PROPOSED RULES: The proposed Rules for Disaster Preparedness Plans, Chapter 111-8-16, set forth, the existing standards for disaster preparedness plans. These proposed Rules do not change the existing rules except to replace the Chapter number and the name of the Department and update legal references throughout. The proposed rules include the following features:
• Substitution in Rule 111-8-16-.01 Definitions of Community Health for Human Resources in the definitions of the Department and Board.
• Restatement in Rule 111-8-16-.02 Exemptions of existing exemptions for family personal care homes, home health agencies, specimen collection stations, emergency care centers and health testing facilities.
• Restatement in Rule 111-8-16-.03 Disaster Preparedness Plan to submit the plan for approval to the Department and deletion of an outdated reference to the initial effective date of the rules.
• Restatement in Rule 111-8-16-.04 Content of Plan of the provisions for the plan to address the who, what, when, where and how questions in the event of a fire, explosion, unanticipated interruption of utility, damage to physical plant.
• Restatement in Rule 111-8-16-.05 Records of existing provisions for the facility to maintain records of changes to plans, rehearsals and plan implementations.
• Revision of Rule 111-8-16-.06 Scope of Regulations to substitute Community Health for Human Resources and update Georgia Code reference.
• Restatement in Rule 111-8-16-.07 Notice to the Department of existing provisions to notify the Department if implementation of the plan results in an injury or loss of life.
• Restatement in Rule 111-8-16-.08 Waivers and Variances of existing provisions regarding being able to petition for a variance or waiver and updating of the Georgia Code reference.
• Restatement in Rule 111-8-16-.09 Enforcement the legal authorities for enforcement of these rules.
• Restatement in Rule 111-8-16-.10 Severability to allow for the continuation of the remaining rules in the event that a portion of the rules is determined to be invalid and substitution of Community Health for Human Resources.
• Inclusion of updated references to the Official Code of Georgia Annotated throughout.

290-5-45-.04 Content of Plan.

(1) The plan shall contain a section in which the unique needs of the facility’s residents are identified and assessed.

(2) The plan shall contain a section which identifies the emergency situations to be addressed by the plan. As a minimum the following emergency situations shall be addressed:

(a) fire;
(b) explosion;
(c) unanticipated interruption of each utility used by the facility; i.e., electricity, gas, other fuel, water, etc.;

(3) For each of the emergencies identified in subsection (2) above, the plan shall include a set of emergency guidelines or procedures. A standardized format should be used throughout the plan that clearly describes how the emergency procedures should be carried out. The emergency procedures should answer the questions of “who, what, when, where, and how”, and allow the facility to be ready to act effectively and efficiently in an emergency situation.

(4) The written procedures referred to in subsection (3) above should address as a minimum: assignment of responsibility to staff members; care of the residents; notification of attending physicians and other persons responsible for the resident; arrangements for transportation and hospitalization; availability of appropriate records; alternate living arrangements; and emergency energy sources.

(a) knowledge of facility staff regarding their responsibility under the plan;
(b) the reliability of individuals or community agencies or services that are listed in the plan as resources to be called upon in the event of an emergency. However, the quest for realism in the rehearsal of the plan should not require the actual movement of nonambulatory patients/residents nor those whose physical or mental condition would be aggravated by a move.

(6) When portions of the facility’s plan are contingent on services or resources of another agency, facility, or institution, the facility shall execute a written agreement with the other party or parties acknowledging their participation in the plan. Such agreement(s) shall be made a part of the plan.
