2005 Federal Poverty Guidelines (FPG) annual income levels are published in the Federal Register of February 18, 2005, Volume 70, Number 33, on pages 8373 - 8375. Annual income levels provided above for 125%-250% of FPG are derived by multiplying the FPG annual income for each family size by the appropriate percentage and rounding to the nearest whole dollar. Monthly income levels for FPG and 125%-250% of FPG are derived by dividing each annual income level by 12 and rounding to the nearest whole dollar.

Calculated and provided by Georgia Department of Community Health, Division of Health Planning, February 2005.

These figures are derived from the "2005 Poverty Guidelines for the 48 Contiguous States and the District of Columbia" as published in the Federal Register of February 18, 2005, Volume 70, Number 33, on pages 8373 - 8375. The annual income levels provided above are derived by multiplying the federal poverty guidelines annual income for each family size by 1.25 (125%) and rounding to the nearest whole dollar. These annual figures are then divided by 12 and rounded to the nearest whole dollar to derive the monthly income levels.
