LENGTH OF AUTHORIZATION: 1 year

PA CRITERIA:

Grastek

- ❖ Approvable for members 5-65 years of age with a diagnosis of grass pollen-induced allergic rhinitis confirmed by a positive skin test or positive in vitro testing for pollen specific IgE antibodies to Timothy grass or cross-reactive grass pollens; *AND*
- ❖ Member has failed to achieve an adequate response with at least 2 of the following: oral antihistamine, leukotriene modifier, nasal antihistamine, nasal corticosteroid; *AND*
- ❖ Must be prescribed with an epinephrine autoinjector; *AND*
- ❖ Must be prescribed by or in consultation with an allergist or immunologist; *AND*
- ❖ The first dose must be administered in a health care setting where the member will be observed for at least 30 minutes under the supervision of a physician with experience in the diagnosis and treatment of severe allergic reactions.

Odactra

- ❖ Approvable for members 12-65 years of age with a diagnosis of house dust mite-induced allergic rhinitis confirmed by a positive skin test or positive in vitro testing for pollen specific IgE antibodies to house dust mites; *AND*
- ❖ Member has failed to achieve an adequate response with at least 2 of the following: oral antihistamine, leukotriene modifier, nasal antihistamine, nasal corticosteroid; *AND*
- ❖ Must be prescribed with an epinephrine autoinjector; *AND*
- ❖ Must be prescribed by or in consultation with an allergist or immunologist; *AND*
- ❖ The first dose must be administered in a health care setting where the member will be observed for at least 30 minutes under the supervision of a physician with experience in the diagnosis and treatment of severe allergic reactions.

Oralair

- ❖ Approvable for members 5-65 years of age with a diagnosis of grass pollen-induced allergic rhinitis (with or without conjunctivitis) confirmed by a positive skin test or positive in vitro testing for pollen specific IgE antibodies to Sweet Vernal, Orchard, Perennial Rye, Timothy or Kentucky Bluegrass; *AND*
- ❖ Member has failed to achieve an adequate response with at least 2 of the following: oral antihistamine, leukotriene modifier, nasal antihistamine, nasal corticosteroid; *AND*

- ❖ Must be prescribed with an epinephrine autoinjector; *AND*
- ❖ Must be prescribed by or in consultation with an allergist or immunologist; *AND*
- ❖ The first dose must be administered in a health care setting where the member will be observed for at least 30 minutes under the supervision of a physician with experience in the diagnosis and treatment of severe allergic reactions.

Palforzia

- ❖ For members 4 years of age and older with a diagnosis of peanut allergy when used for mitigation of allergic reactions, including anaphylaxis, that may occur with accidental exposure to peanut and when used in conjunction with a peanut-avoidance diet; *AND*
- ❖ Must be prescribed with an epinephrine autoinjector; *AND*
- ❖ Must be prescribed by or in consultation with an allergist or immunologist; *AND*
- ❖ Member must be observed for at least 60 minutes after administration of the initial dose escalation and first dose of each up-dosing level under the supervision of a health care professional in a health care setting with the ability to manage potentially severe allergic reactions, including anaphylaxis; *AND*
- ❖ Healthcare facility, prescriber, pharmacy and member enrolled in the Palforzia REMS program; *AND*
- ❖ Prescriber must submit a written letter of medical necessity.

Ragwitek

- ❖ Approvable for members 18-65 years of age with a diagnosis of short ragweed pollen-induced allergic rhinitis confirmed by a positive skin test or positive in vitro testing for pollen specific IgE antibodies to short ragweed; *AND*
- ❖ Member has failed to achieve an adequate response with at least 2 of the following: oral antihistamine, leukotriene modifier, nasal antihistamine, nasal corticosteroid; *AND*
- ❖ Must be prescribed with an epinephrine autoinjector; *AND*
- ❖ Must be prescribed by or in consultation with an allergist or immunologist; *AND*
- ❖ The first dose must be administered in a health care setting where the member will be observed for at least 30 minutes under the supervision of a physician with experience in the diagnosis and treatment of severe allergic reactions.
