(2) The governing body shall be responsible for the development of the plan. The governing body shall designate those individual(s) within the facility who have primary responsibility for rehearsal and implementation of the plan.

(3) Each facility must submit a proposed to the Department for approval.

(a) The facility shall submit one copy of the complete plan.

(b) The Department will notify the facility if the plan is approved.

(c) If the Department finds a plan lacks certain aspects but is still in substantial compliance with these regulations, the Department may grant provisional approval of the plan for a specified period of time and require the facility to submit a revised plan for approval.

(d) Anytime a revision is made in the facility's Disaster Preparedness Plan, a copy of the revised plan must be forwarded to the Department for approval.

(4) The Department may require a revised plan under certain conditions, including but not limited to: an increase or decrease in facility population or staff; additions or major renovations to the physical plant of the building; changes in the overall community preparedness plan; or technological advancements which provide new warning and communications systems or sources.

Authority: O.C.G.A. § 31-7-3(c).

111-8-16-.04 Content of Plan.

(1) The plan shall contain a section in which the unique needs of the facility's residents are identified and assessed.

(2) The plan shall contain a section which identifies the emergency situations to be addressed by the plan. As a minimum the following emergency situations shall be addressed:

- (a) fire;
- (b) explosion;
- (c) unanticipated interruption of each utility used by the facility; i.e., electricity, gas, other fuel, water, etc.;
- (d) loss of air conditioning or heat; and
- (e) damage to physical plant resulting from severe weather, i.e., tornadoes, ice or snow storms, etc. Other emergencies or hazards may be included in the plan.

(3) For each of the emergencies identified in subsection (2) above, the plan shall include a set of emergency guidelines or procedures. A standardized format should be used throughout the plan that clearly describes how the emergency procedures should be carried out. The emergency procedures should answer the questions of "who, what, when, where, and how", and allow the facility to be ready to act effectively and efficiently in an emergency situation.

(4) The written procedures referred to in subsection (3) above should address as a minimum: assignment of responsibility to staff members; care of the residents; notification of attending physicians and other persons responsible for the resident; arrangements for transportation and hospitalization; availability of appropriate records; alternate living arrangements; and emergency energy sources.

(5) The plan must contain a section that outlines the frequency of rehearsal and the procedures to be followed during rehearsal. The rehearsal should be as realistic as possible and designed to check the following:

- (a) knowledge of facility staff regarding their responsibility under the plan;
- (b) the reliability of individuals or community agencies or services that are listed in the plan as resources to be called upon in the event of an emergency. However, the quest for realism in the rehearsal of the plan should not require the actual movement of nonambulatory patients/residents nor those whose physical or mental condition would be aggravated by a move.

(6) When portions of the facility's plan are contingent on services or resources of another agency, facility, or institution, the facility shall execute a written agreement with the other party or parties acknowledging their participation in the plan. Such agreement(s) shall be made a part of the plan.

Authority: O.C.G.A. § 31-7-3(c).

111-8-16-.05 Records.

The facility shall maintain the following records and make them available to authorized Department employees upon request:

- (a) a copy of the plan and any subsequent changes thereto;
- (b) records of rehearsals of the plan;

Authority: O.C.G.A. § 31-7-3(c).

111-8-16-.06 Scope of Regulations.

Authority: O.C.G.A. § 31-7, Article 1.

In other emergency situations which dictate implementation of the plan a record shall be made including a written incident report and a written critique of the performance under the plan. These records shall be filed with the plan and made available to the Department during inspections of the facility.

Authority: O.C.G.A. § 31-7-3(c).

111-8-16-.08 Waivers and Variances.

The Department, upon petition, may grant variances or waivers of specific rules and regulations as provided for in O.C.G.A. §31-2-7 when it has been shown that the rule or regulation is not applicable or to allow experimentation and demonstration of new and

innovative approaches to the delivery of services, or the center has met the intended purpose of the rule through equivalent standards, provided that the granting of the variance or waiver will not jeopardize the health, safety or care of the residents. The Department may establish conditions which must be met by the facility in order to operate under the variance or waiver.

Authority: O.C.G.A. §§ 31-2-7 and 31-7-3(c).

111-8-16-.09 Enforcement.

A facility which fails to comply with these rules and regulations shall be subject to revocation of its permit or provisional permit and/or other sanctions provided by law. The enforcement and administration of these rules and regulations shall be as prescribed in O.C.G.A. Chapter 31-5, Enforcement and Administrative Procedure, which includes provisions for:

It is the intent of the Board of Community Health to establish rules and regulations that are constitutional and enforceable so as to safeguard the health and well-being of the people of the State.
