Federal Poverty Guidelines: 2019 Federal Poverty Guidelines (FPG) annual income levels are published in the Federal Register of February 1, 2019, Volume 84, Number 22, on pages 1167-1168.

Percentage Calculations: Annual income levels provided above for 125%-250% of FPG are derived by multiplying the FPG annual income for each family size by the appropriate percentage and rounding to the nearest whole dollar. Monthly income levels for FPG and 125%-250% of FPG are derived by dividing each annual income level by 12 and rounding to the nearest whole dollar.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### National Committee on Vital and Health Statistics: Meeting

Pursuant to the Federal Advisory Committee Act, the Department of Health and Human Services (HHS) announces the following advisory committee meeting.

*Name:* National Committee on Vital and Health Statistics (NCVHS), Subcommittee on Privacy, Confidentiality and Security.

*Date and Times:* Thursday, March 21, 2019: 9:00 a.m.–5:30 p.m. (EDT), Friday, March 22, 2019: 8:30 a.m.–3:00 p.m. (EDT).

*Place:* Centers for Disease Control and Prevention, National Center for Health Statistics, 3311 Toledo Road, Auditorium, Hyattsville, Maryland 20782.

*Status:* Open. There will be an opportunity for public comment at the end of the first day of the meeting.

*Purpose:* NCVHS is charged with studying and identifying privacy and security and access measures to protect individually identifiable health information in an environment of electronic networking and multiple uses of data. Further, the Committee advises the Secretary and is mandated to report to Congress on the status of the Health Insurance Portability and Accountability Act of 1996 (HIPAA), which establishes the regulatory framework for personally identifiable health information by covered entities and business associates.

Through the Subcommittee on Privacy, Confidentiality and Security, the Committee undertook a “Beyond HIPAA” initiative to examine emerging health information privacy and security issues that are beyond the scope of HIPAA to consider a health data privacy and security framework for the 21st century. The goals for the Beyond HIPAA initiative are to:

1. Identify and describe the changing environment and the risks to privacy and security of confidential health information; highlight promising policies, practices and technology;
2. Lay out integrative models for how best to protect individuals’ privacy and secure health data uses outside of HIPAA protections while enabling useful uses, services and research;
3. Formulate recommendations for the Secretary on actions that HHS and other federal Departments might take; and
4. Prepare a report for data stewardship.

The objective of this meeting is to develop recommendations to define a

contemporary framework of data stewardship for the HHS Secretary, including a pathway for improving private and public sector governance of health information over the next decade. To accomplish this, the Subcommittee plans to:

(a) Outline key principles for stewardship of health data in the environment described in a recent NCVHS environmental scan report and the essential public and private levers to ensure appropriate governance;

(b) Reach consensus on actions to update NCVHS’ 2008 report, “Enhanced Protections for Uses of Health Data: A Stewardship Framework for “Secondary Uses” of Electronically Collected and Transmitted Health Data—Summary for Policy Makers.”

Through this work, the Subcommittee also plans to identify key themes for communications with individuals, policymakers, and stakeholders in the private sector. The times and topics for this meeting are subject to change. Please refer to the posted agenda for any updates.

*Contact Persons for More Information:* Substantive program information may be obtained from Rebecca Hines, MHS, Executive Secretary, NCVHS, National Center for Health Statistics, Centers for Disease Control and Prevention, 3311 Toledo Road, Hyattsville, Maryland 20782, telephone (301) 458–4715. **SUPPLEMENTARY INFORMATION:**

**Background**

Section 673(2) of the Omnibus Budget Reconciliation Act (OBRA) of 1981 (42 U.S.C. 9902(2)) requires the Secretary of the Department of Health and Human Services to update the poverty guidelines at least annually, adjusting them on the basis of the Consumer Price Index for All Urban Consumers (CPI–U). The poverty guidelines are used as an eligibility criterion by Medicaid and a number of other Federal programs. The *poverty guidelines* issued here are a simplified version of the *poverty thresholds* that the Census Bureau uses to prepare its estimates of the number of individuals and families in poverty.

As required by law, this update is accomplished by increasing the latest published Census Bureau poverty thresholds by the relevant percentage change in the Consumer Price Index for All Urban Consumers (CPI–U). The guidelines in this 2019 notice reflect the 2.4 percent price increase between calendar years 2017 and 2018. After this inflation adjustment, the guidelines are rounded and adjusted to standardize the differences between family sizes. In rare circumstances, the rounding and standardizing adjustments in the formula result in small decreases in the poverty guidelines for some household sizes even when the inflation factor is not negative. In cases where the year-to-year change in inflation is not negative and the rounding and standardizing adjustments in the formula result in reductions to the guidelines from the previous year for some household sizes, the guidelines for the affected household sizes are fixed at the prior year’s guidelines. As in prior years, these 2019 guidelines are roughly equal to the poverty thresholds for calendar year 2018 which the Census Bureau expects to publish in final form in September 2019.

The poverty guidelines continue to be derived from the Census Bureau’s current official poverty thresholds; they are not derived from the Census Bureau’s Supplemental Poverty Measure (SPM).

The following guideline figures represent annual income.

**2019 POVERTY GUIDELINES FOR THE 48 CONTIGUOUS STATES AND THE DISTRICT OF COLUMBIA**

6 .....	34,590
7 .....	39,010

7 .....	48,780
8 .....	54,310

For families/households with more than 8 persons, add \$5,530 for each additional person.

**2019 POVERTY GUIDELINES FOR HAWAII**

Persons in family/household	Poverty guideline

2 .....	19,460
3 .....	24,540
4 .....	29,620
5 .....	34,700

Separate poverty guideline figures for Alaska and Hawaii reflect Office of Economic Opportunity administrative practice beginning in the 1966–1970 period. (Note that the Census Bureau poverty thresholds—the version of the poverty measure used for statistical purposes—have never had separate figures for Alaska and Hawaii.) The poverty guidelines are not defined for Puerto Rico or other outlying jurisdictions. In cases in which a Federal program using the poverty guidelines serves any of those jurisdictions, the Federal office that

administers the program is generally responsible for deciding whether to use the contiguous-states-and-DC guidelines for those jurisdictions or to follow some other procedure.

Due to confusing legislative language dating back to 1972, the poverty guidelines sometimes have been mistakenly referred to as the “OMB” (Office of Management and Budget) poverty guidelines or poverty line. In fact, OMB has never issued the guidelines; the guidelines are issued each year by the Department of Health and Human Services. The poverty guidelines may be formally referenced as “the poverty guidelines updated periodically in the **Federal Register** by the U.S. Department of Health and Human Services under the authority of 42 U.S.C. 9902(2).”

Some federal programs use a percentage multiple of the guidelines (for example, 125 percent or 185 percent of the guidelines), as noted in relevant authorizing legislation or program regulations. Non-Federal organizations that use the poverty guidelines under their own authority in non-Federally-funded activities also may choose to use a percentage multiple of the guidelines.

The poverty guidelines do not make a distinction between farm and non-farm families, or between aged and non-aged units. (Only the Census Bureau poverty thresholds have separate figures for aged and non-aged one-person and two-person units.)

Note that this notice does not provide definitions of such terms as “income” or “family,” because there is considerable variation in defining these terms among the different programs that use the guidelines. These variations are traceable to the different laws and regulations that govern the various programs. This means that questions such as “Is income counted before or after taxes?”, “Should a particular type of income be counted?”, and “Should a particular person be counted as a member of the family/household?” are actually questions about how a specific program applies the poverty guidelines. All such questions about how a specific program applies the guidelines should be directed to the entity that administers or funds the program, since that entity has the responsibility for defining such terms as “income” or “family,” to the extent that these terms are not already defined for the program in legislation or regulations.
