

PUBLIC NOTICE

Pursuant to 42 C.F.R. § 447.205, the Georgia Department of Community Health is required to give public notice of any significant proposed change in its methods and standards for setting payment rates for services.

Comprehensive Supports Waiver Program (COMP)

Effective July 1, 2014 and subject to waiver amendment approval by the Centers for Medicare and Medicaid Services, the Department is proposing to make the following changes to Medicaid reimbursement for specific services provided through the COMP Waiver Program:

1. Increase the current rates of the following services by 1.5%, an amount determined by the 2014 Georgia General Assembly:
 - a. Community Access Services (both Group and Individual)
 - b. Prevocational Services
 - c. Supported Employment Services (both Group and Individual)
 - d. Community Residential Alternative Services
 - e. Community Living Supports (both the 15-minute unit and the daily rates)
 - f. Support Coordination
2. Establish rates for one new service:
 - a. Behavioral Supports Services which will provide additional support for individuals with challenging behaviors through onsite intervention and training for paraprofessional staff and family members. The proposed rate is \$18.75/unit following rates for similar services in other programs.
3. Remove Skilled Nursing Services from its current bundled rate methodology linked to the provision of community residential or home-based community living supports services. Skilled Nursing Services will be billed under the established nursing services rates under the waiver as a separate, stand-alone service.

These service changes are made for the purpose of enhancing the array of services available to individuals with intensive medical and/or behavioral needs and increasing transparency in service delivery and reimbursement. The rate increases for current services follow Legislative Action and approval by Governor Deal.
