

Alert of Coverage Changes in Enbrel[®], Humira[®] and Remicade[®]

Dear :

Starting December 1, 2009, there will be a change in the coverage for Enbrel[®], Humira[®], and Remicade[®] in the Georgia Medicaid Fee-for-Service (FFS) program. Humira[®] will still be on the preferred list for medications, but Enbrel[®] and Remicade[®] will be placed on the non-preferred list beginning on December 1, 2009. As of the same date, Enbrel[®], Humira[®], and Remicade[®] will require a prior authorization (PA). This information is also being shared with your doctor.

If you are currently on one of these medications, please call your doctor to discuss this letter and the medication you are using. Your doctor can call SXC at **1-866-525-5827** before December 1, 2009 to request that you be able to continue your current medication.

This letter is not meant to replace the care you receive from your doctor.

Sincerely,

Georgia Department of Community Health
Medicaid Fee-For-Service
