Nationwide Health Information Network

Patient / Consumer Engagement

“Health IT is as healthy as ever before, and innovative startups...are tapping to the opportunities and mission to use health IT to improve health and healthcare,” National Coordinator Farzard Mostashri, MD

“I salute your daily work in our shared mission to place the patient and their interests at the center of everything we do.” Farzard Mostashri, MD

Proposed Stage 2 Requirements for Health Care Providers
Enabling patients to view, download and share their EHR data online

"together need to help the public understand what health IT means to them and how it is going to affect them.“ David Brailer, MD 1st "health information czar"

Consumers will need to understand the benefits of EHR systems and will "have to trust the [doctor] or hospital to maintain the privacy and security of the information.“ David Brailer, MD

Patient / Consumer Engagement

PLEDGE to Empower Individuals to be Partners in their Health through Health IT

A national campaign to educate and engage the public on the value and benefits of health information technology

Level of Difficulty

Excerpt from a 1966 film on use of computers in healthcare, this segment from Akron general hospital predicts great things for computers in medicine

Level of Difficulty

- 1961 vs. Today
 - Hospital Predicts Great Things for Computers in Medicine
 - Relieve Nurses and Doctors of Some Paperwork
 - Correlation of Diseases
 - Prevent Errors
 - Eliminate Patient Harm

Georgia Health Information Exchange (GHIE)
