

Certificate of Need Batching Review Cycle Notification for Home Health Agencies March 29, 2019

This notice is issued in compliance with Rule 111-2-2-.08(1) of the Batching Review Process and in accordance with O.C.G.A. § 31-6-40.1(b).

The Department of Community Health, Office of Health Planning, will accept and review Certificate-of-Need applications for new or expanded Home Health Services for certain counties in the State Service Delivery Regions (SSDR), as outlined herein. A map of the SSDRs is attached at page 4. Pursuant to Rule 111-2-2-.32(3)(a) and (b), the Department shall authorize the submission of applications for expanded Home Health Services if the net numerical need in a given planning area is 250 patients or more, or the submission of applications for new Home Health Services if the net numerical need in a given planning area is 500 patients or more.

The net numerical unmet need in the following State Service Delivery Region exceeds 500 patients, authorizing the Department to consider applications for both new and expanded Home Health Services in these regions:

State Service Delivery Region 3 – Net Numerical Unmet Need: 1,255

An applicant must propose to provide service only within a geographic service area, as defined in the rules and component plan, comprised of a county or group of counties, each which reflects a numerical unmet need, and contained within the given planning area for which the Department has authorized the submission of applications. Applicants should note that the definition of geographic service area is different for an applicant seeking to provide expanded services and an applicant seeking to provide new services. The following counties reflect numerical unmet need, noted in parenthesis, and are the only counties potentially eligible for new or expanded services, as authorized in the SSDR as noted above. Applicants must propose to provide services in one or more of the counties reflecting unmet need, to equal or exceed the total number of patients at or above the level required for new or expanded Home Health Services. Please note that the net numerical need is the sum of only those counties with unmet need and this total will exceed the net numerical unmet need for a given State Service Delivery Region, due to the omission of those counties that reflect a service surplus within the SSDR.
