

Interim Provider Payments (IPP) - For Fee-for-Service Providers Only

Fee-for-service providers who experience delays in their payments due to system-related claims adjudications or significantly higher than normal denied or suspended claims may request an Interim Provider Payment by submitting an Interim Provider Payment Request Form. The form will be available on the GAMMIS website at www.mmis.georgia.gov or by contacting HP at 1-800-766-4456. Please see Interim Provider Payment Form processing instructions below. Providers will be required to attest to the billed amount of submitted claims and the conditions of the Interim Provider Payment. Payment will be based on the lesser amount of:

- o 80 percent of the billed sum of claims submitted but not paid
- o 80 percent of the historical average payment totals for the payee
- o The amount of the requested Interim Provider Payment

The Department of Community Health reserves the right to impose a different interim payment limitation if it is deemed necessary. Interim Provider Payments, if approved, will be made for Medicaid covered services only.

Instructions: The forms are to be submitted on a retrospective basis, meaning that prior to completing the form, the provider must wait for the issuance of their Remittance Advice to determine the outcome of their weekly claims submission. The provider is responsible for signing the Interim Provider Payment Request Form before it is submitted. The provider may submit the Interim Provider Payment Request Form via fax or e-mail. Only one form per week, per payee, will be accepted. If approved, forms will be processed in the week they are approved. A new form must be completed and submitted for each interim provider payment requested.

Please Note: The interim provider payment will be automatically recouped at 100% when the provider's claims are later processed through the automated claims processing system, or they must be fully repaid within no more than 30 days from the date of the system-fix if the provider is advised to rebill the claims. A list of claims' ICNs must accompany the Interim Provider Payment request on a separate sheet. CMO Providers are not eligible to receive Interim Provider Payments.

Important: All signed IPP forms must be submitted by no later than Wednesday of each week. Late applications will be processed the following week - if applicable.
